January 12, 2015

The Honorable Jeremiah W. (Jay) Nixon The Honorable Members of the Legislature Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report (CAFR) of the State of Missouri for the fiscal year ended June 30, 2014. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and his opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, "Audit of State and Local Governments and Non-Profit Organizations."

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

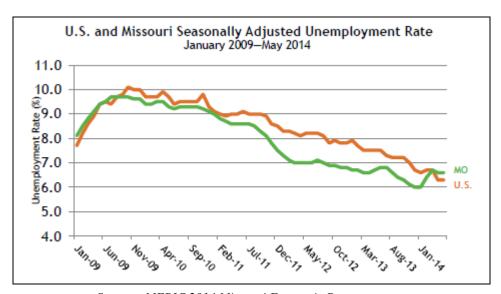

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Missouri's economy continues to show some growth. However, there are signs of uncertainty in the U.S. and Missouri's economy. The U.S. gross domestic product (GDP) retracted in the first quarter of 2014 and unemployment in Missouri began to increase starting in February of 2014. The overall unemployment rates continued to decline for both the U.S. and Missouri, both of which hit nearly a six year low. Missouri's lowest point was 6.0% in January of 2014, with the rate increasing to 6.5% in June 2014, but the overall trend in unemployment is still moving downward. As shown in the chart, Missouri's unemployment rate increased at the end of fiscal year 2014 resulting in Missouri's unemployment exceeding the U.S. rate for the first time since 2009.

Source: MERIC 2014 Missouri Economic Report.

In spite of the uneven growth over the previous year, the overall trend in unemployment has continued to drop and is far lower than it was during the recession. Some other positive signs of improvement for Missouri include:

- over 42,000 jobs that were added from May 2013 to May 2014, which is a 1.5% increase from the prior year.
- Missouri's purchasing managers index (PMI) has been above the expansionary level for 17 consecutive months starting in January 2013. PMI for May 2014 was 57.7, which was the highest the index has been since June 2012.
- industrial production has grown by more than 4% from May 2013 to May 2014. This increase is close to double from the previous year.

Long-Term Financial Planning

Missouri net general revenue collections declined by 1.0% in fiscal year 2014. Restrictions were placed on expenditure appropriations during the fiscal year to control the rate of spending. In addition, the State continues to focus on reducing costs and increasing efficiency in state government.

During the 2014 legislative session, the legislature passed Senate Bill 509 and Senate Bill 496, which would have made substantial changes to the State's existing tax structure. These bills were vetoed by the Governor and subsequently overridden by the General Assembly on May 6, 2014. The legislation reduced the maximum tax rate on personal income, created an income tax deduction for business income as well as increased a personal exemption for individuals that have an adjusted gross income of less than \$20,000. It is difficult to predict the estimated costs that these bills will have on the State's income due to ambiguity in the bills. However, the Legislative Oversight Division, using information from the University of Missouri Economic and Policy Analysis Research Center, estimates that the bills would cost at least \$620 million annually once fully in effect, which would occur in fiscal year 2022. If the language remains regarding the elimination of the top tax bracket, is legally enforceable and is interpreted in a manner that imposes no income tax on taxpayers who have taxable income in excess of \$9,000, then the Office of Administration, Division of Budget and Planning, estimates that the change would cost the State over \$4.8 billion annually, beginning in 2022 at the earliest.

In addition to the two aforementioned senate bills, the General Assembly passed ten separate pieces of legislation providing various tax breaks to special interest groups. The estimated total annual impact of these pieces of legislation was approximately \$425 million. Each of these bills were also vetoed by the Governor. However, they were not overridden by the General Assembly. The General Assembly sustained all but two of the vetoes. The veto on two bills were overridden, with one estimated to have a negative impact on revenue of \$300,000. The veto override on the second bill has an unknown revenue impact, but could possibly have a significant negative impact on revenue as the legislation shifts the burden of proof regarding tax exemptions from taxpayers to the Director of Revenue.

Missouri continues to take advantage of historically low interest rates by refunding some of its existing debt that was originally issued at higher interest rates. In June and August 2014, the State refunded outstanding Missouri Highways and Transportation Commission First Lien and Second Lien State Road Bonds as well as Board of Public Building Bonds for economic savings. The bond sales produced combined budgetary savings of \$133.9 million over the life of the bonds. The present value savings for the three refunding transactions were 12.55%, 7.29%, and 7.92%, respectively. As refunding opportunities present themselves, the State will continue to review the potential impact to the State and will continue to review all debt outstanding to ensure that the State's debt is managed efficiently.

The State also plans to issue approximately \$200,000,000 of annual appropriation bonds to finance the construction of a new mental health facility to replace the existing Fulton State Hospital. The General Assembly has authorized the issuance of the bonds through the Missouri Development Finance Board with the bonds to be secured through annual appropriations made by the State pursuant to a financing agreement with the board. The financing would include two separate bond issuances with the first one in December 2014 for \$93 million. It is anticipated the second issuance will occur in the Spring of 2016. Additionally, the State's Board of Public Buildings has given preliminary approval to issue approximately \$38.5 million of bonds in calendar year 2015 to renovate and repair Lafferre Hall on the University of Missouri – Columbia campus.

Relevant Financial Policies

Article X, Sections 16-24 of the Constitution of Missouri (the "Tax Limitation Amendment"), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually based on a formula which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year, the excess revenue will be refunded based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995-1999. The State has refunded to income taxpayers \$979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2014, inclusive. The State is currently \$3.6 billion below the limit and does not expect the limit to be exceeded in fiscal year 2015.

Major Intiatives

As the economy is slow to fully recover, the State has continued to focus on reduced spending. Major initiatives include a focus on education and the well-being of Missouri citizens.

Education. Senate Bill 492 sets forth performance funding for Missouri public college and universities. The new law will ensure funding increases to colleges and universities are based on specific performance measures and allow for advances in higher education affordability and accountability.

Public Health. Senate Bill 754 extends the Missouri Rx Program that provides prescription drug assistance to the elderly and disabled. The program was set to expire in August 2014. This bill reauthorizes the program until August 28, 2017. In addition, the bill contains numerous provisions addressing public health such as, but not limited to, requiring students attending and living on a campus of public higher education institutions receive the meningococcal vaccine, the creation of the "Show-Me Extension for Community Health Care Outcomes (ECHO) Program" to expand the treatment of chronic, common, and complex diseases in rural and underserved areas, requiring hospitals to offer influenza immunizations to all inpatients 65 years or older prior to discharge, and established the "Show-Me Health Babies" Program as a separate children's health insurance program for low-income unborn child.

Social Services. Senate Bill 869 and House Bill 1831 enhance protections for the health and safety of children. The new law will strengthen child care by establishing a set of quality indicators for all child care providers. The indicators will assist parents in determining if a particular child care provider has met necessary criteria such as state licensure and health and safety requirements. The 2015 implementation of these indicators will allow for continued federal assistance for families in the amount of \$100 million. The bills also requires the establishment of a website containing health and safety information and a parent hotline.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

Stacy Neal, CPA

THOMAS A. SCHWEICH

Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT

Honorable Jeremiah W. (Jay) Nixon, Governor and Members of the General Assembly

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the state's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain entities that comprise the state of Missouri. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. Those entities were:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Conservation Employees' Insurance Plan; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State

Highway Patrol Medical and Life Insurance Plan, which represent 79 percent and 12 percent of the assets and revenues, respectively, of the governmental activities.

- 2. The State Lottery and the Petroleum Storage Tank Insurance Fund, which are both major funds and represent 34 percent and 54 percent of the assets and revenues, respectively, of the business-type activities.
- 3. The aggregate discretely presented component units.
- 4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation Local Fund, which represent 94 percent and 99 percent of the assets and additions, respectively, of the fiduciary funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Conservation Employees' Insurance Plan, the Missouri State Employees' Insurance Plan, and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board and the Missouri Agricultural and Small Business Development Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinions on the governmental activities and General Fund opinion units and our unmodified opinions on all remaining opinion units.

Basis for Qualified Opinions on the Governmental Activities and General Fund

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Director of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of *Director of Revenue v. State Auditor 511 S.W.2d 779 (Mo. 1974)*. Approximately 27 percent of governmental activity revenues and 32

percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Qualified Opinions

In our opinion, based on our audit and the reports of other auditors, and except for the possible effects of the matter described in the "Basis for Qualified Opinions on the Governmental Activities and General Fund" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the state of Missouri, as of June 30, 2014, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, for the fiscal year ending June 30, 2014, the state of Missouri implemented Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Reported as Assets and Liabilities*, and Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*. In addition, the University of Missouri, a discretely presented component unit, early implemented Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No.* 27. Statement No. 68 is not required to be implemented until fiscal year 2015. Our opinions are not modified with respect to this matter.

As discussed in Note 17 to the financial statements, the 2013 financial statements have been restated to correct misstatements. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 1-13 and the Budgetary Comparison Schedule-General Fund, Major Special Revenue Funds on pages 104-105 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial

statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, and the other information, which consists of the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, and except for the possible effects on the supplementary information of the matter discussed in the "Basis for Qualified Opinions on the Governmental Activities and General Fund" paragraph, the supplementary information, as listed in the table of contents, is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The information in the introductory and statistical sections has not been subjected to the audit procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, our report dated January 12, 2015, on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters is issued under separate cover in the Single Audit Report. The purpose of our report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal

control over financial reporting or on compliance. Our report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of Missouri's internal control over financial reporting and compliance.

Thomas A. Schweich State Auditor

Thomas A Schwoll

January 12, 2015

The **Management's Discussion and Analysis** provides a narrative overview and analysis of the financial activities of the State.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's (State's) financial activities for the fiscal year ended June 30, 2014. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS - PRIMARY GOVERNMENT

Government-Wide:

- Net Position. Assets of the State of Missouri exceeded liabilities at the close of fiscal year 2014 by \$31.3 billion. Of the \$31.3 billion, "unrestricted net position" is reported as a negative \$1.1 billion, offset by \$3.8 billion in "restricted net position". A positive balance in unrestricted net position would represent the amount available to be used to meet the government's ongoing operations.
- Changes in Net Position. The State's total net position increased by \$595.6 million in fiscal year 2014. Net position for governmental-type activities increased by \$228.8 million.
- Excess of Revenues over (under) Expenses. During fiscal year 2014, the State's total revenues of \$25.1 billion were \$578.5 million greater than total expenses of \$24.5 billion (excluding transfers). Of these expenses, \$14.4 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$10.7 billion.

Fund-Level:

- Governmental Funds Fund Balance. At the close of fiscal year 2014, the State's governmental fund assets exceeded liabilities by \$4.7 billion, a decrease of \$245.7 million or 5.0% from the prior year. The decrease was primarily due to a decrease in total revenues of \$372.6 million.
- General Fund Fund Balance. At the end of the current fiscal year, the State's General Fund reported a balance of \$1.2 billion.

Additional information regarding individual funds begins on Page 9.

Debt Issued and Outstanding:

• The primary government's total long-term obligations related to bonds payable decreased \$313.8 million or 8.0% over the prior year. The outstanding bonds payable represents 45.4% of financial assets (cash, receivables, and investments) and 9.0% of total assets. The net decrease in bonds payable resulted from a decrease of \$237,035,000 due to bond payments, \$1,072,350,000 due to bond refunding, and an increase of \$995,955,000 due to issuances of Regional Convention and Sports Complex Authority Bonds, Board of Public Buildings Bonds, and Missouri Department of Transportation State Road Fund Bonds. Additional detail is available in *Note 12*.

Revenue Limit:

• The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2014, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets and liabilities, with the difference between the two reported as *net position*. Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, and insurance coverage. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, and Missouri Wine and Grape Board.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government–wide financial statements, a reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Petroleum Storage Tank Insurance, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules for the Missouri Road Fund, non-major special revenue, debt service, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased \$595.6 million or 1.9% during fiscal year 2014. This increase resulted primarily from a decrease in bonds payable of \$313.8 million and an increase in unamortized bond premium of \$138.1 million due to the State capitalizing on historically low interest rates by refunding state bonds and a decrease in loans payable of \$308.5 million, due to the pay off of Unemployment Compensation's loan balance with the federal government. Net position net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by \$355.7 million or 1.1%. The net investment in capital assets and restricted net position, components of net position, increase was primarily due to the increase in capital assets of \$327.4 million.

Net investment in capital assets, which includes capital assets, bonds payable, or capital lease obligations, is the largest component of the State's net position at \$28.6 billion or 91.4%. These assets include land, infrastructure, buildings, and equipment which are not easily converted to cash or readily available to pay state debts as they come due.

Restricted net position of the primary government totaled \$3.8 billion or 12.1% of total net position vs. 12.4% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of \$14.4 billion and general revenues of \$10.7 billion for total revenues of \$25.1 billion during fiscal year 2014. Expenses for the State during fiscal year 2014 were \$24.5 billion. Total net position, net of contributions and transfers, increased by \$595.6 million.

Governmental Activities

The net position of governmental activities increased \$228.8 million in fiscal year 2014. General and program revenues of governmental activities remained relatively constant during the fiscal year.

As shown in the Revenues by Source chart below, approximately 46.2% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 46.2% of total revenue. Charges for services contributed 7.1% and various other revenues provided 0.5% of the remaining governmental activity revenue sources.

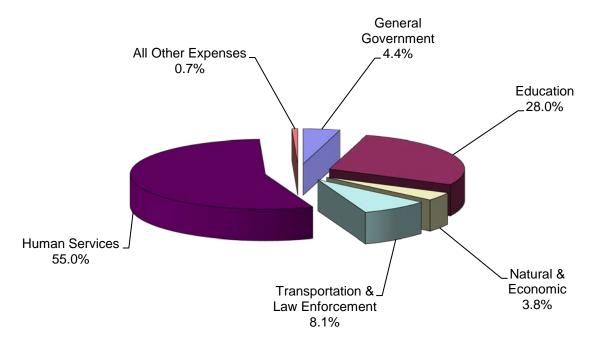

Revenues by Source

The State's governmental activities program expenses increased \$164.6 million during fiscal year 2014. Education expenses increased \$62.9 million, General Government expenses decreased \$57.4 million, Natural and Economic Resources expenses decreased \$58.2 million, Transportation and Law Enforcement expenses decreased \$67.9 million, Human Services expenses increased \$290.5 million, and all Other Expenses decreased \$5.3 million.

As shown in the Expenses by Function chart below, expense for Human Services makes up the largest portion - 55.0% - of total governmental activities expenses.

Expenses by Function

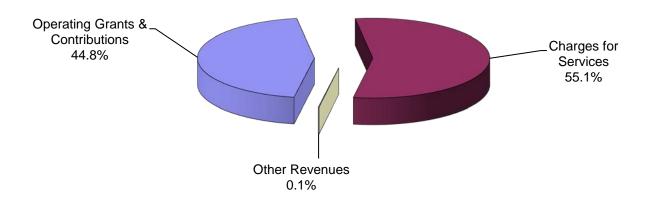

Business-Type Activities

Net position of the State's business-type activities increased \$366.8 million in fiscal year 2014, mainly due to the payoff of Unemployment Compensation's loan balance with the federal government which was \$308.5 million at the end of fiscal year 2013.

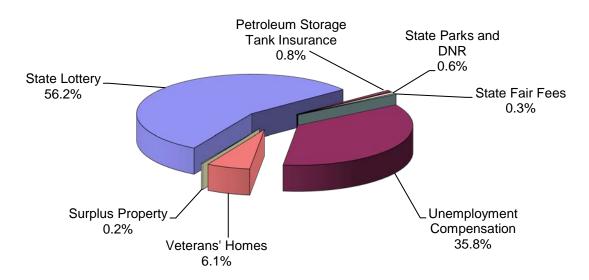

Revenues of business-type activities totaled \$2.2 billion. As shown in the Revenues by Source chart below, 55.1% of the revenues came from charges for services. Operating grants and contributions provided 44.8% of the total revenues and all other revenues provided 0.1%.

Revenues by Source

Expenses of business-type activities totaled \$1.6 billion. As shown in the Expenses by Fund chart below, State Lottery makes up the largest portion with 56.2% of total business-type expenses. The Unemployment Compensation comes in second at 35.8%, followed by veterans' homes at 6.1%, petroleum storage tank insurance at 0.8%, state parks and DNR at 0.6%, state fair fees at 0.3%, and surplus property at 0.2%.

Expenses by Fund

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2014, the State's governmental funds reported combined ending fund balances of \$4.7 billion. Approximately 34.6% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	_	General Fund	E	Public ducation	En	onservation and vironmental Protection	_	Missouri Road Fund	N	on-Major Funds	Total
Nonspendable	\$	50,504	\$	115	\$	1,085,732	\$	29,135	\$	55,072	\$ 1,220,558
Restricted		286,717		208,861		141,406		915,960		280,378	1,833,322
Committed		560,138		4,450		312,953				28,630	906,171
Assigned		70,694		71,880		97,095				230,321	469,990
Unassigned		241,420							_		241,420
Total	\$	1,209,473	\$	285,306	\$	1,637,186	\$	945,095	\$	594,401	<u>\$ 4,671,461</u>

The General Fund is the chief operating fund of the State. At the end of fiscal year 2014, the State's General Fund reported a total fund balance of \$1.2 billion, a decrease in fund balance from fiscal year 2013 of \$236.9 million. Total revenues decreased \$281.9 million due to a combination of lower net individual income tax and corporate income tax remittances in fiscal year 2014 compared to fiscal year 2013 of \$54.0 million, a \$51.8 million decrease in tobacco settlement revenues and a \$158.4 million decrease in food stamp revenues due to a decrease in food stamp recipients. Total expenditures increased \$183.5 million, mainly in human services due to an increase in Medicaid services, assistance payments, home and community based services, and the development of the Missouri Eligibility Determination and Enrollment System for Medicaid and Other Assistance Programs. This increase was due to an increase in a variety of factors including increased participants, cost increases, and a lower federal reimbursement rate.

The Public Education Fund provides general and special education services to the children of the State and other related functions such as library services and student loans. Total fund balance decreased \$3.8 million in fiscal year 2014 due to the fact that revenues and transfers in were not sufficient to cover expenditures. Revenues and expenditures were relatively stable verses fiscal year 2013.

The Conservation and Environmental Protection Fund provides for the preservation of the State's wildlife and environment. In fiscal year 2014, the increase in fund balance of \$71.2 million is smaller than the increase in fund balance of \$126.7 million in fiscal year 2013 due to a decrease in revenues. Revenues decreased \$52.8 million due to fewer available grants, while expenditures remained relatively stable.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. The fund balance decreased \$79.7 million in fiscal year 2014. Revenues decreased \$78.5 million in fiscal year 2014. This was due to a decrease in federal grants revenue related to decreased reimbursements for construction and hazard elimination projects and a decrease in American Recovery and Reinvestment Act revenue due to highway projects ending in September of 2014.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own. The Petroleum Storage Tank Insurance Fund accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks. The fund pays cleanup expenses for petroleum leaks or spills from underground storage tanks and certain above ground storage tanks as well as third party property damage or bodily injury resulting from such discharges. This fund is one of the largest insurers of storage tanks in the country.

The State Lottery Fund's net position decreased by \$1.0 million due to increased operating expenses. Total operating expenses increased by 2.0% from \$876.3 million in fiscal year 2013 to \$894.2 million in fiscal year 2014. Most of the increase is attributable to increased prizes from Pull-tab sales. The net impact of these results for fiscal year 2014 was a decrease in the actual cash transfer of profits for public education from \$280.2 million to \$277.9 million. In addition, the Lottery returned \$766.2 million to players in cash and prizes and \$70.6 million to retailers in commissions and incentives for the 2014 fiscal year.

The Unemployment Compensation Fund's net position increased by \$347.1 million due to both a reduction in the amount of loans payable reported and a reduction in the amount of unemployment claims as a result of federal benefits which began during the recession being discontinued. As of January 1, 2011, Missouri had an outstanding loan balance with the federal government for two consecutive years resulting in a reduction in the Federal Unemployment Tax Act (FUTA) tax credit that Missouri employers are allowed to claim on their taxes. The additional dollars collected by the federal government was used to pay down Missouri's loan balance. As of June 30, 2014, the loan balance has been paid off in full.

The Petroleum Storage Tank Insurance Fund's net position increased by \$18.5 million due to a decrease in the actuarial evaluation of projected Incurred But Not Reported (IBNR) claims liability.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted and increases to estimated appropriations, which occur during the fiscal year.

Budgeted appropriations for fiscal year 2014 from the General Fund were \$24.7 billion original budget and \$25.2 billion final budget. Actual spending was \$22.8 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year, but the expenditures may occur over several years.
- Capital improvement appropriations were restricted during the budget process.

Budgeted revenues/transfers in for fiscal year 2014 for the General Fund were \$24.0 billion original budget and \$24.4 billion final budget. Actual revenue/transfers in was \$22.6 billion.

Refer to the Notes to RSI, Budgetary Reporting, on page 106 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2014, was \$32.1 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure.

Capital Assets of the State include (in thousands):

	Go	overnmental Activities	Business-Type Activities		Total
Construction in Progress	\$	299,557	\$	7,824	\$ 307,381
Software in Progress		25,140			25,140
Infrastructure in Progress		2,252,353			2,252,353
Land		2,929,263		10,872	2,940,135

Total Capital Assets, Net	\$ 32,053,563		\$ 53,972		\$ 32,107,535

Additional information on capital assets can be found in Note 5 of this report.

Debt Administration:

At the end of fiscal year 2014, the primary government had total general obligation and other bonded debt outstanding of \$3.6 billion. Of this amount, \$323.4 million comprises debt backed by the full faith and credit of the government.

Principal amounts retired in fiscal year 2014 were \$54.8 million for general obligation bonds and \$1.3 billion for other bonds.

The State of Missouri is proud to have maintained a Triple-A credit rating since 1989 from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable of the State include (in thousands):

	Governmental Activities		Component Units	Total	
General Obligation Bonds Other Bonds	\$ 323,395 3,303,700	\$	2,124,163	\$	323,395 5,427,863
Total	\$ 3,627,095	\$	2,124,163	\$	5,751,258

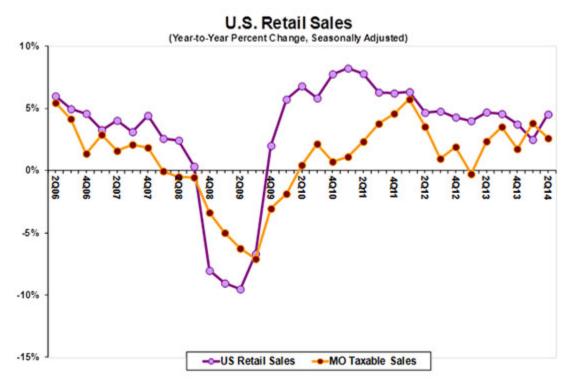

Additional information on long-term debt can be found in *Notes 11, 12, and 13* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

The State's net general revenue collections declined by 1.0% during fiscal year 2014, which resulted with collections in the amount of \$8.0 billion. Revenue growth of approximately 10% in general revenue collections is needed to reach the revenue necessary to support the fiscal year 2015 budget, as appropriated in May 2014. The Governor vetoed \$275.7 million from the fiscal year 2015 budget, largely due to the sizable increase in revenues needed to balance the budget as well as the loss of \$50 million in tobacco settlement payments and \$51.8 million for tax amnesty that has failed to be passed by the legislature. In addition, the budget was restricted another \$846.3 million in operating and capital expenditure appropriations. These restrictions were put in place partially to reduce the potential impact of ten bills that would change the tax structure of the State, all of which were vetoed by the Governor. The veto was sustained by the legislature for all but two of the bills, therefore the Governor released \$143.6 million of the restricted funding for education. However, many of these restrictions remain in place partially due to a ruling by a national arbitration panel regarding payments to states under the 1998 Tobacco Master Settlement Agreement. Missouri is expected to owe the tobacco companies \$20 million, which would be repaid in the form of an offset of the State's next payment that would be received from the tobacco companies.

The outlook for general revenue for fiscal year 2015 remains uncertain. Growth was slow during the first quarter of 2014. Equity markets continue reaching new highs and the number of jobs is steadily improving. Recent growth in sales tax suggests consumers are feeling more secure about their income. Despite an increase in issued permits, housing markets continue to struggle with stagnant prices in parts of the country.

Missouri taxable sales continue to grow and retail spending increased overall during the last fiscal year. Consumer confidence continues to show improvement, which is reflected in spending patterns. The growth is slow and consumers are still cautious with spending as the economy continues to show signs of relatively small growth. Retail sales account for approximately 65% of taxable sales in Missouri. The first quarter of 2014 resulted in \$18.7 billion in taxable sales in Missouri, which is an increase of 2.44% over the same quarter in the previous year. This was the largest increase over the previous year's quarter since the first quarter of 2012. While the second quarter taxable sales did not show as much of an increase compared to the previous year, sales still increased by 1.90% totaling sales of \$20.4 billion. The second quarter of 2014 marked the fifth straight quarter of year-to-year seasonally adjusted growth and 16 out of 17 quarters of unadjusted growth. The following graph shows the percent change in retail and taxable sales for the U.S. and Missouri:

Source: Missouri Economic Research and Information Center/Realty Trac

Despite the current national economic situation, Missouri's financial position continues to be strong. Conservative fiscal management, including Missouri's constitutional provisions for the Governor to line item veto and restrict expenditures below appropriated levels, will ensure the fiscal year 2015 budget is balanced.

The fiscal year 2015 economic outlook is generally expected to be better than 2014, reflecting modest improvement in the overall state and national economy. It is uncertain when the State will expect to feel the impact of the change in economic conditions with increased tax revenues. In addition, it is uncertain if any of the increases in tax revenues will offset the decline in gaming revenues that occurred in fiscal year 2014 and that is expected to continue to be weak in 2015.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

The **Basic Financial Statements** include the Government-Wide Financial Statements, the Governmental Fund Financial Statements, the Proprietary Fund Financial Statements, the Fiduciary Fund Financial Statements, the Component Unit Financial Statements, and the accompanying notes to the statements.

The Governmental Funds focus on current financial resources.

Governmental Fund Financial Statements

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education – Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection – Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund – Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. This also includes the following blended component unit: Missouri Highway 63 Transportation Corporation.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements and Schedules for non-major funds as part of Supplementary Information.

STATE OF MISSOURI RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION June 30, 2014 (In Thousands of Dollars)

Total Fund Balances – Governmental Funds	\$	4,671,461
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental funds are not financial resources and they are not reported in the funds. These assets consist of (Note 5):		
Infrastructure 47,728,36	50 53 57 64 51 57 64 57 7	
Accumulated Depreciation/Amortization (25,745,92	<u>(1)</u>	31,691,556
Deferred inflows of resouces related to the State's revenues that will be collected after year-end, but are not available soon enough to pay for the current period's expenditures are deferred in the funds. Bonds issued by the State have associated costs that are paid from current available financial resources in the funds. However, these costs are deferred on the Statement of Net Position. Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of (Note 11):		766,259 120,767
Due to Other Entities General Obligation and Other Bonds Payable Unamortized Bond Premium Accrued Interest on Bonds Obligation under Lease Purchases Pollution Remediation Compensated Absences Claims Liability Contingent Liabilities Net Other Postemployment Benefit Obligation (23,35 (33,61	95) 87) 0) 33) 8) 59) 85) 88) 60)	(6,902,267)
Internal service funds are used by management to charge the costs of certain activities, such a insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position

Decrease in Claims Liability	6,429	
Increase in Net Other Postemployment Benefit Obligation	(101,058)	
Increase in Net Pension Obligation	(2,011)	(58,797)
		(= -) /
Internal service funds are used by management to charge the costs of certain a		
insurance and telecommunications, to individual funds. The net revenue and	expense of	
internal service funds are reported with governmental activities.		 13,846
Change in Net Position of Governmental Activities		\$ 228,828

The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.

Proprietary Fund Financial Statements

Major Funds

State Lottery – Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation – Accounts for contributions and payments collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

Petroleum Storage Tank Insurance – Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, The Financial Reporting Entity, for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, Determining Whether Certain Entities are Component Units, added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34, improves financial reporting by amending GASB Statement No. 14, The Financial Reporting Entity, and Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis - for State and Local Governments, in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Governmental Funds:

<u>Board of Fund Commissioners</u> - The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

<u>Board of Private Investigator and Private Fire Investigator Examiners</u> - The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. Separate financial statements are not required for the Board.

Note 1 - Significant Accounting Policies (cont.)

<u>Board of Unemployment Fund Financing</u> – The Board was created by state law to provide a method of providing funds for the payment of unemployment benefits and maintaining an adequate fund balance in the Unemployment Compensation Fund. The Board is comprised of the Governor, Lieutenant Governor, Attorney General, the Director of the Department of Labor and Industrial Relations, and the Commissioner of Administration. Separate financial statements are not required for the Board.

<u>Coordinating Board for Early Childhood</u> – The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's Office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. Separate financial statements are not required for the Board.

<u>Missouri State Penitentiary Redevelopment Commission</u> - The Commission was established to coordinate the planning and redevelopment of the old Jefferson City Correctional Center. The ten member commission consists of three members appointed by the Jefferson City mayor, three members appointed by the Cole County Commission, and four members appointed by the Governor. Separate financial statements are not required for the Commission.

Capital Projects Funds:

<u>Missouri Highway 63 Transportation Corporation</u> – This is reported as a part of the Missouri Road Fund. This transportation corporation is a not-for-profit corporation organized under the Missouri Transportation Corporation Act. The corporation was formed to facilitate the construction of highway projects. When the purpose for which this corporation was formed has been complied with and all obligations of the corporation have been paid, the Board of the corporation shall, with the approval of the Missouri Highways and Transportation Commission, dissolve the corporation. Additional information may be requested from:

Missouri Department of Transportation Financial Services Division P.O. Box 270 Jefferson City, Missouri 65102

Internal Service Funds:

<u>Board of Public Buildings</u> – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds and pay the costs of operations.

Note 1 - Significant Accounting Policies (cont.)

<u>Conservation Employees' Insurance Plan</u> - The Plan provides health and life insurance coverage to eligible employees and retirees of the Missouri Department of Conservation. The Plan is administered by a five member board of trustees made up of three members of the Plan appointed by the Conservation Commission which consist of two Conservation employees and Division Chief, the Chief Financial Officer, and the Human Resources Division Chief. Copies of the Plan's financial statements may be requested from:

Missouri Department of Conservation P.O. Box 180 Jefferson City, Missouri 65102

<u>Transportation Self-Insurance Plan</u> - The Plan provides fleet vehicle liability, workers' compensation, and general liability insurance. The Plan is administered by the Missouri Department of Transportation. Additional information may be requested from:

Missouri Department of Transportation Financial Services Division P.O. Box 270 Jefferson City, Missouri 65102

<u>Missouri State Employee's Insurance Plan</u> - The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Furthermore, the Plan administers the State's Deferred Compensation Plan through the MOSERS Board of Trustees. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

<u>Missouri Consolidated Health Care Plan (MCHCP)</u> – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; six members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Insurance, Financial Institutions and Professional Registration; and the Commissioner of Administration. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan P.O. Box 104355 832 Weathered Rock Court Jefferson City, Missouri 65110-4355

Note 1 - Significant Accounting Policies (cont.)

MoDOT/MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation Financial Services Division P.O. Box 270 Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

<u>Missouri State Employees' Retirement System (MOSERS)</u> – The System was created by state law and provides retirement, survivor, disability, and life insurance to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - The System provides retirement, death, and disability benefits to qualified employees of the Missouri Highways and Transportation Commission (includes employees of the Department of Transportation) and both uniformed and non-uniformed members of the State Highway Patrol. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and Highway Patrol Employees' Retirement System P.O. Box 1930 Jefferson City, Missouri 65102–1930

Note 1 - Significant Accounting Policies (cont.)

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post–employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan P.O. Box 104355 832 Weathered Rock Court Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan - The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25, \$30, or \$35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010 until further notice. Copies of financial statements for both Plans may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

Note 1 - Significant Accounting Policies (cont.)

Major

<u>College and Universities</u> – The Coordinating Board for Higher Education has certain responsibilities for these institutions and they receive State support. Following are the public college and universities included in the financial statements:

Harris-Stowe State University 3026 Laclede Avenue

St. Louis, Missouri 63103

Lincoln University 207 Young Hall 820 Chestnut Street Jefferson City, Missouri 65101

Linn State Technical College 1 Technology Drive Linn, Missouri 65051

Missouri Southern State University 3950 East Newman Road Joplin, Missouri 64801-1595

Missouri State University 901 South National, Room 119 Springfield, Missouri 65897

Missouri Western State University 4525 Downs Drive St. Joseph, Missouri 64507 Northwest Missouri State University 105 Administration Building 800 University Drive Maryville, Missouri 64468-6001

Southeast Missouri State University One University Plaza, Mail Stop 3200 Cape Girardeau, Missouri 63701

Truman State University McClain Hall, Room 105 100 East Normal Kirksville, Missouri 63501

University of Central Missouri 316 Administration Building Warrensburg, Missouri 64093

University of Missouri System 1000 West Nifong, Building 7, Suite 300 Columbia, Missouri 65211

Non-Major

Missouri Development Finance Board – The Board was created by state law as an independent, self-supporting, body corporate and politic to promote economic development of the State and was created within the Department of Economic Development. The Board is empowered to issue taxable, tax-exempt, and public purpose infrastructure industrial revenue bonds or notes; provide loans or loan guarantees to eligible businesses; provide loans and grants to political subdivisions to fund public infrastructure improvements; and issue tax credits against certain state income taxes in exchange for contributions made to the Board. The twelve member board is made up of the Lieutenant Governor and the Directors of the Department of Economic Development, the Department of Natural Resources, and the Department of Agriculture, who serve as ex-officio voting members, and eight members appointed by the Governor and confirmed by the Senate. Copies of the Board's financial statements may be requested from:

Missouri Development Finance Board Governor Office Building 200 Madison Street, Suite 1000 Jefferson City, Missouri 65101

Note 1 - Significant Accounting Policies (cont.)

Missouri Agricultural and Small Business Development Authority — The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small Business Development Authority P.O. Box 630 1616 Missouri Boulevard Jefferson City, Missouri 65102

<u>Missouri Transportation Finance Corporation</u> – The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities fund highway and transportation projects throughout the State. The Missouri Highways and Transportation Commission determines which applicants are extended loans from the Missouri Transportation Finance Corporation. Copies of the Corporation's financial statements may be requested from:

Missouri Department of Transportation Central Office, Financial Services 105 West Capitol Avenue Jefferson City, Missouri 65101

<u>Missouri Wine and Grape Board</u> – The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board P.O. Box 630 1616 Missouri Boulevard Jefferson City, Missouri 65102

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

<u>Missouri Health and Educational Facilities Authority</u> - finances health and educational facilities.

<u>Missouri Higher Education Loan Authority</u> - provides a secondary market for loans made under the Federal Family Education Loan Program.

Note 1 - Significant Accounting Policies (cont.)

<u>Missouri Housing Development Commission</u> - finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

<u>Missouri Technology Corporation</u> – promotes the modernization of businesses through the development of science and technology applications.

<u>Missouri Public Entity Risk Management Fund</u> – provides liability protection to participating public entities, their officials, and employees.

<u>State Environmental Improvement and Energy Resources Authority</u> – finances, acquires, constructs, and equips projects to reduce, prevent, and control pollution and develop the energy resources of the State.

<u>Jackson County Sports Complex Authority</u> - responsible for construction, operation, and financing of the Jackson County Sports Complex.

<u>Kansas City Regional Sports Complex Authority</u> - responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

<u>St. Charles County Convention and Sports Facility Authority</u> - responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization - organized for boll weevil eradication.

<u>KCT Intermodal Transportation Corporation</u> - organized to pay for a railroad bridge in the Blue Valley Industrial District in Kansas City.

<u>Westside Intermodal Transportation Corporation</u> - organized to pay for rail additions and improvements of the Kansas City Terminal Railway.

<u>Universal Service Board</u> - organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

<u>Interstate Commission for Adult Offender Supervision</u> – responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

<u>Missouri Health Insurance Pool</u> - organized to provide health care coverage for residents who are unable to obtain individual health coverage.

<u>Board of Trustees of the Missouri Mesothelioma Risk Management Fund</u> – provides coverage of liabilities for participating employers relating to mesothelioma awards.

<u>P-20 Council</u> - organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

<u>Missouri Propane Gas Commission</u> - responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

<u>Missouri Family Trust Board of Trustees</u> - provides trust services for persons with disabilities.

Note 1 - Significant Accounting Policies (cont.)

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

The difference between fund assets and liabilities is reported as "Net Position" on the government-wide, proprietary, and fiduciary fund statements and "Fund Balance" on the governmental fund financial statements.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

Note 1 - Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets and liabilities associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

<u>General Fund</u> - accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

<u>Public Education</u> – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

<u>Conservation and Environmental Protection</u> – provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes and licenses, fees, and permits.

<u>Missouri Road Fund</u> - accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

Note 1 - Significant Accounting Policies (cont.)

<u>State Lottery</u> – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

<u>Unemployment Compensation</u> - accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

<u>Petroleum Storage Tank Insurance</u> – accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks. Major revenues are from fees.

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

<u>Proprietary Funds</u> include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

<u>Fiduciary Funds</u> include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other entities.

Discretely Presented Component Units:

Major

<u>College and Universities</u> account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Note 1 - Significant Accounting Policies (cont.)

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of three months or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

E. <u>Investments</u>

These are long-term investments with an original maturity greater than three months which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. All investments are reported at fair value (see *Note 3*).

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and agency funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government–Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units are reclassified as accounts receivable/payable at the government–wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government–Wide Statement of Net Position.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as "advances from other funds" or "advances from primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

Note 1 - Significant Accounting Policies (cont.)

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement (see *Notes 5 and 6*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software and trademarks – \$5,000, and equipment – \$1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, and infrastructure – 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings - 40 years, land improvements and building improvements - 20 years, equipment - 5 to 15 years, and software - 3 to 5 years.

Note 1 - Significant Accounting Policies (cont.)

J. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position may report a separate section for deferred outflows of resources. Deferred outflows of resources consist of the decrease of net position by the State that is applicable to a future reporting period and will not be recognized as outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position may report a separate section for deferred inflows of resources. Deferred inflows of resources consist of the increase of net position by the State that is applicable to a future reporting period and will not be recognized as inflow of resources (revenue) until then.

Deferred inflows for unavailable revenue are those for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met for governmental funds, which use the modified accrual basis of accounting. Therefore, such amounts are reported within the governmental fund financial statements as receivables and offset by a deferred inflow account. These amounts include \$685,325,000 within the General Fund, \$50,990,000 within the major special revenue funds, \$22,213,000 within the Missouri Road Fund, \$7,645,000 within the non-major special revenue funds, and \$86,000 within all other non-major governmental funds which totals \$766,259,000 for governmental funds. Such amounts have been deemed to be measurable, but not available. All major sources of revenue, including taxes; licenses, fees, and permits; and governmental contributions are susceptible to accrual when available within 60 days.

K. Unearned Revenues

Governmental Funds

Unearned revenues also include amounts collected in advance of the year in which earned. The State has reported as such unearned revenues the amount of \$21,058,000 within the General Fund, \$117,000 within major special revenue funds, and \$10,625,000 within the Missouri Road Fund which totals \$31,800,000 for governmental funds.

Proprietary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$25,258,000 within the internal service funds included in governmental activities. Total unearned revenue for enterprise funds is \$993,000 which includes \$442,000 from the State Lottery Fund and \$551,000 from the Petroleum Storage Tank Insurance Fund. These amounts are included in the business-type activities.

Fiduciary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$3,717,000 within the pension (and other employee benefits) trust funds.

Component Units

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$139,328,000 within the college and universities and \$1,899,000 in non-major component units which is a total of \$141,227,000 of unearned revenue for component units.

Note 1 - Significant Accounting Policies (cont.)

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

- 1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).
- 2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).
- 3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Health and Educational Facilities Authority, the Regional Convention and Sports Complex Authority, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
- 4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).

- 5. Obligations under lease/purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11*).
- 6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 11 and 21*).
- 7. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds, but are recorded as expenditures when paid (see *Note 11*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State.

Note 1 - Significant Accounting Policies (cont.)

- 8. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred, but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 11, 20, and 22*).
- 9. The State provides postemployment health care and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT/MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer (see *Note 8*).
- 10. The State has two major retirement systems which cover substantially all State employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The annual required contribution (ARC) was determined as a part of an actuarial valuation of the Systems using the entry age normal actuarial cost method (see *Note 7*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

M. Net Position

Net Position is reported in three categories:

<u>Net Investment in Capital Assets</u> - An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributed to acquisition, construction, or improvement of those assets.

<u>Restricted Net Position</u> - An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2014, net position restricted by enabling legislation equaled \$467,856,000 for governmental activities.

<u>Unrestricted Net Position</u> – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

Note 1 - Significant Accounting Policies (cont.)

N. Interfund Transactions

During the fiscal year, the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions basically consist of these three types:

- Transactions that would be treated as revenues or expenditures/expenses, if they involved
 organizations external to the State, are similarly treated when involving other funds of the
 State. Major transactions that fall into this category include payments to internal service
 funds from other funds for services rendered and to agency funds for contributions for
 employee benefits.
- 2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.
- 3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the same activity (Governmental) are eliminated at the Government-Wide Statement of Activities.

O. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

The property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standard issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2014:

- GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities or recognizes, as outflows of resources (expenses or expenditures) or inflows of resources (revenues), certain items that were previously reported as assets and liabilities. The implementation of this statement is reflected in the financial statements.
- GASB Statement No. 66, *Technical Corrections 2012*, which amends accounting and financial reporting by state and local governmental entities, including public entity risk pools, by resolving conflicting guidance that resulted from the issuance of GASB Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and GASB Statements No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The implementation of this statement did not have an impact on the financial statements.
- GASB Statement No. 67, *Financial Reporting for Pension Plans*, which establishes financial reporting standards for defined benefit and defined contribution pension plans that are administered through trusts or equivalent arrangements. The implementation of this statement did not have an impact on the State's Comprehensive Annual Financial Report, however, the Missouri State Employees' Retirement System and Missouri Department of Transportation and Highway Patrol Employees' Retirement System implemented this statement in their separately issued financial statements.
- GASB Statement No. 68, Accounting and Financial Reporting for Pensions an amendment of CASB Statement No. 27, which establishes standards for state and local governments that provide pensions through pension plans administered through trusts or equivalent arrangements for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures, as well as amending required note disclosures. This statement is not required to be implemented until fiscal year 2015, but was implemented early by the University of Missouri which is included as a major component unit under College and Universities.
- GASB Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees, which provides accounting and financial reporting guidance to state and local governments that either extend or receive nonexchange financial guarantees. This statement affects disclosures found in Note 23 Nonexchange Financial Guarantees in the State's CAFR.

Note 3 - Deposits and Investments

The State Treasurer maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2014.

Note 3 - Deposits and Investments (cont.)

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Primary Government

At June 30, 2014, the bank balance of the primary government's deposits was \$903,800,000. Of the bank amount, \$10,305,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institutions, \$45,633,000 was held by the U.S. Treasury, and the remainder was not exposed to custodial risk.

Fiduciary

At June 30, 2014, the bank balance of the deposits of the fiduciary funds was \$651,920,000. None of these deposits were exposed to custodial credit risk.

Component Units

Information on the component units deposits is available within their individual financial statements.

B. Investments

Statutes authorize the State Treasurer to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2014.

The State Treasurer minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Wells Fargo Bank, National Association, or at one of the State Treasurer approved collateral custodians.

.

Note 3 - Deposits and Investments (cont.)

Primary Government

At June 30, 2014, the reported amount of the primary government's investments was \$3,195,538,000. Of this amount, \$147,988,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

Fiduciary

At June 30, 2014, the reported amount of the fiduciary funds investments was \$15,837,354,000. Of this amount, \$30,027,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

Component Units

Information on the component units investments is available within their individual financial statements.

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer. The externally-held internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 2.5 years, and holding at least 25% of the portfolio's total market value in securities with a maturity of 12 months or less.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer from investing more than 10% of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 5% of the total portfolio per issuer and no more than 15% of the total portfolio may be invested in repurchase agreements with a single counterparty. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2014, the State did not have any instances of noncompliance with these requirements and policies.

Note 3 - Deposits and Investments (cont.)

The State Treasurer requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments. The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates that will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

	Investment Type

Note 3 - Deposits and Investments (cont.)

C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.5, RSMo. Citibank, National Association, acts as securities lending agent and Wells Fargo acts as the State Treasurer's custodial bank.

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The maximum duration gap between loans and investments shall be 15 days. The maximum life of term loans shall be 90 days. The Custodian provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2014, the State Treasurer's Office had an aggregate fair value of securities lent of \$156,089,000 and an aggregate fair value of collateral received of \$156,089,000.

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Certain securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default. On June 30, 2014, MOSERS had no credit risk exposure to borrowers because the collateral amounts received exceeded amounts out on loan.

Deutsche Bank AG, New York Branch served as the agent for the fixed income, domestic equity, and international equity securities lending programs. MOSERS reduces credit risk by allowing Deutsche Bank to lend these securities to a diverse group of dealers on behalf of MOSERS. Deutsche Bank provides indemnification against dealer default.

Daily monitoring of securities that are on loan ensure proper collateralization levels and mitigate counterparty risk. The majority of the security loans are open loans and can be terminated on demand by either MOSERS or the borrower. Cash collateral is invested in short-term investment funds, managed by Deutsche Bank. On June 30, 2014, the cash collateral fund had a market value of \$37,195,000 and a weighted average maturity of 1 day. At June 30, 2014 and June 30, 2013, MOSERS had earned \$531,000 and \$1,021,000, respectively, on the securities lending program.

Note 3 - Deposits and Investments (cont.)

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (the System), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. The System's custodial bank is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

The System may lend securities and receive cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. The System cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers were required to deliver collateral for each loan equal to: 1) in the case of loaned securities denominated in dollars or whose primary trading market was located in the United States, 102% of the market value of the loaned securities plus any accrued interest; and 2) in the case of loaned securities not denominated in U.S. dollars or whose primary trading market was not located in the United States, 105% of the market value of the loaned securities plus any accrued interest.

The System did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

The System and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2014, the cash collateral fund had a market value of \$86,192,000.

At June 30, 2014 and June 30, 2013, the System had earned \$265,000 and \$175,000, respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

D. **Derivatives**

Missouri State Employees' Retirement System (MOSERS), through its external investment managers, has an investment policy which holds investments in futures contracts, swap contracts, and forward foreign currency exchange contracts. MOSERS does not anticipate additional significant market risk from the swap arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. For the year ended June 30, 2014, the change in fair value of the foreign exchange contracts resulted in a loss of \$5.3 million of investment income. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. MOSERS also invests in mortgage–backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. At June 30, 2014, MOSERS Foreign Currency Forward Contracts had a pending receivable of \$139,962,000 and a pending payable of \$140,881,000 resulting in a final liability of \$919,000.

Note 4 - Governmental Fund Balance

A. Governmental Fund Balance Classifications

\$ 3,471,158 \$

The State's fund balances are classified as:

<u>Nonspendable</u> - Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

<u>Restricted</u> - Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature.

<u>Assigned</u> - Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed.

<u>Unassigned</u> - Amounts that do not meet the criteria of any of the classifications listed above.

Note 4 - Governmental Fund Balance (cont.)

Fund Balance Classifications by Purpose - In the basic financial statements, the fund balance classifications are presented in the aggregate. The following displays the fund balances by major purpose (in thousands of dollars):

B. Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

C. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the Governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the Governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each house. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2014, was \$556,284,000.

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2014, was as follows (in thousands of dollars):

Capital Asset Impairment

Due to a fire on April 8, 2014, the vehicle maintenance facility for the Missouri Highway Patrol was significantly damaged. The impairment amount of \$132,000 is reported as an extraordinary item in the government-wide Statement of Activities.

.

Note 6 - Leases

Capital

The State has entered into various agreements to lease land, buildings, and equipment. FASB Statement No. 13, *Accounting for Leases,* requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease).

Capital leases for the internal service funds, enterprise funds, and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

Fiscal Year Ending June 30	Go	vernmental Funds	Internal Service Funds		iterprise Funds	College and Universities		
2015	\$	8,305	\$	5,829	\$ 67	\$	5,908

2019		6,084		198			5,814	
2020-2024		15,292					18,178	
2025-2027							4,693	
Total Minimum Lease Payments Less Amount Representing		50,168		18,183	 218		52,130	
Interest		(4,445)		(376)	 (3)		(9,954)	
Present Value of Net Minimum Lease Payments	\$	45,723	\$	17,807	\$ 215	\$	42,176	

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under the lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued \$21,820,000 of Leasehold Revenue Refunding Bonds Series A 2013 and \$7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding \$20,805,000 of Leasehold Revenue Bonds Series 2006, respectively. The payments on these leases are subject to annual appropriation by the State legislature.

Note 6 - Leases (cont.)

Following is a summary of the future minimum lease payments to pay interest and principal of the Leasehold Revenue Bonds (in thousands of dollars):

Fiscal Year Ending June 30	Internal Service Funds			
2015	\$	2,434		
2016		2,427		
2017		2,418		
2018		2,418		
2019		2,417		
2020-2024		12,055		
2025-2029		12,037		
2030-2031		4,810		
Total Minimum Lease Payments		41,016		
Less Amount Representing Interest		(9,501)		
Present Value of Net				
Minimum Lease Payments	\$	31,515		

Series A 2005 Refunding Certificates of Participation dated March 1, 2005, in the amount of \$120,490,000 refunded \$13,945,000 of Missouri Public Facilities Corporation Certificates of Participation (Acute Care Psychiatric Hospital Project) Series A 1994, \$13,400,000 of Missouri PRC Corporation Certificates of Participation (Psychiatric Rehabilitation Center Project) Series A 1995, \$9,915,000 of Northwest Missouri Public Facilities Corporation Certificates of Participation (Northwest Missouri Psychiatric Rehabilitation Center Project) Series B 1995, and \$83,480,000 of Missouri Public Facilities Corporation II Certificates of Participation (Bonne Terre Prison Project) Series A 1999. The State issued Refunding Certificates of Participation Series A 2011 dated June 7, 2011, in the amount of \$76,910,000. The Refunding Certificates of Participation refunded \$76,065,000 of Series A 2005 Refunding Certificates of Participation.

The State's obligation under these leases does not constitute a general obligation or other indebtedness of the State. The certificates of participation represent proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate and are subject to annual appropriation by the State legislature.

Following is a summary of the future minimum lease payments for the Certificates of Participation (in thousands of dollars):

Fiscal Year	Governmental Funds			
Ending June 30		runas		
2015	\$	13,666		
2016		13,666		
2017		13,666		
2018		13,665		
2019		13,669		
Total Minimum Lease Payments		68,332		
Less Amount Representing Interest		(3,172)		
Present Value of Net		_		
Minimum Lease Payments	\$	65,160		

Note 6 - Leases (cont.)

Assets acquired through these capital lease agreements are recorded as capital assets at the lower of the present value of the minimum lease payments or the fair value at the time of acquisition. The following is the value of the property under capital lease by asset category as of June 30, 2014 (in thousands of dollars):

	Go	vernmental Funds	Internal Service Funds	terprise Funds	llege and niversities
Buildings Equipment	\$	217,312 5,129	\$ 38,809 26,533	\$ 416	\$ 49,481 12,123
	\$	222,441	\$ 65,342	\$ 416	\$ 61,604

Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating, because the lease period is one year with multiple renewal options. Future minimum commitments due under operating leases as of June 30, 2014, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds						iterprise Funds	 omponent Units
2015	\$	27,270	\$ 3,840	\$ 10,417				
2016		38	245	8,792				
2017		13	193	7,078				
2018		1	193	4,153				
2019		1	186	2,591				
2020-2024				5,748				
Total Minimum Commitments	\$	27,323	\$ 4,657	\$ 38,779				

Expenditures for rent under operating leases for the years ended June 30, 2014 and June 30, 2013 were \$38,848,000 and \$26,529,000, respectively.

Note 6 - Leases (cont.)

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the leased facilities is \$111.8 million for component units. The Department of Natural Resources (DNR) has \$14,500 in income from easements on DNR property. This income will be received in perpetuity. The contract conditions and amount for each individual easement can change with the sale of the property requiring the easement. New contracts will be negotiated with new property owners. Future minimum receivables, payable from lessor arrangements as of June 30, 2014, were as follows (in thousands of dollars):

Fiscal Year	Co	mponent
Ending June 30		Units
	-	
2015	\$	5,233
2016		4,156
2017		4,013

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all state employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The University of Missouri's Retirement Plan is included because the University is a component unit of the State. The Public School Retirement System of Missouri is included in this note disclosure as the State contributes to it.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The Plans are administered in accordance with Sections 104.010 and 104.312-104.1215, and 476.445-476.690, RSMo, respectively.

Note 7 - Retirement Systems (cont.)

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. Employees covered by the MSEP and the MSEP 2000 plans are fully vested after 5 years of creditable service (4 years for elected officials and either 4 or 6 years for legislators). Employees covered by the MSEP 2011 plan are fully vested after 10 years of creditable service. The retirement eligibility requirements are as follows:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 55 with
at least 10 years of service with
reduced benefits.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 57 with
at least 5 years of service with
reduced benefits.

MSEP 2011

Age 67 with 10 years of service
Age 55 with age and service equaling 90
or more (Rule of 90)
Employees may retire early at age 62 with
at least 10 years of service with
reduced benefits.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less
than 12 years of service or age 60 with less
than 15 years of service with a reduced
benefit that is based upon years of service
relative to 12 or 15 years.

<u>Judicial Plan 2011</u>

Age 67 with 12 years of service
Age 62 with 20 years of service
Employees may retire early at age 67 with less
than 12 years of service with reduced
benefits or age 62 with less than 20 years
of service with a reduced benefit based on
years of service.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

Note 7 - Retirement Systems (cont.)

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer defined benefit public employees' retirement system administered in accordance with Sections 104.010–104.1093, RSMo.

MPERS membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan–2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 2011. The Year 2000 Plan–2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 10 years of creditable service.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years of service

Age 65 with 5 or more years of service

Age 60 with 15 or more years of service

Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 55 and active with 4 or more years of service

Age 55 with 5 or more years of service Age 48 with sum of age and service

equaling 80 or more (Rule of 80)

Mandatory retirement at age 60

All non-uniformed members may retire early with reduced benefits at age 55 with at least 10 years of service.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the change in the Consumer Price Index (CPI) with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 48 with sum of age and service equaling 80 or more (Rule of 80) Mandatory retirement at age 60 with 5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:

Age 67 with 10 or more years of service Age 55 with sum of age and service equaling 90 or more (Rule of 90)

Uniformed patrol members:

Age 55 and active with 10 or more years of service

Mandatory retirement at age 60 with no minimum service amount

Note 7 - Retirement Systems (cont.)

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 10 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 10 or more years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Copies of financial reports issued by MOSERS and MPERS may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System P.O. Box 1930 Jefferson City, Missouri 65102–1930

Funding Policy

MOSERS administers plans which cover substantially all State of Missouri employees. The State of Missouri is obligated by state law to make all required contributions to the MSEP (closed plan), MSEP 2000, MSEP 2011, and Judicial Plans. Beginning January 1, 2011, employee contributions of 4% of gross pay are required for those covered by the MSEP 2011 and Judicial Plan 2011. The actuarially determined contributions are expressed as a level percentage of covered payroll. Until the actuarial funding ratio of the MOSERS Plan and Judges Plan is at least 80%, the annual actuarial required contribution rate shall not be reduced below the contribution rate determined by the June 30, 2013, actuarial valuation, which was 16.97% and 58.45% of covered payroll for the MOSERS Plan and Judges Plan, respectively. All amounts contributed pursuant to this policy that exceed the computed employer normal cost shall be applied to the unfunded accrued liability.

The State of Missouri makes required contributions to MPERS. Beginning January 1, 2011, employee contributions of 4% of gross pay are required for those covered by the Year 2000 Plan–2011 Tier. Current year calculated contribution rates are 55.23% for uniformed members of the Highway Patrol and 54.25% for non–uniformed members of the Highway Patrol and employees of the Missouri Department of Transportation. Actual contribution rates are the same as the actuarially determined rates.

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

		MSEP	Ju	dicial Plan	 MPERS
Annual required contribution Interest on net pension obligation Actuarial adjustment to annual	\$	326,370 5,736	\$	29,265 3,950	\$ 183,354

Funded Status and Funding Progress

The funded status of the Plans as of June 30, 2014, are as follows (in thousands of dollars):

	_	MSEP	Jud	licial Plan	 MPERS
Actuarial Value of Assets	\$	8,637,759	\$	124,269	\$ 1,795,264
Actuarial Accrued Liability (AAL) Entry Age	\$	11,494,572	\$	462,336	\$ 3,650,242
Unfunded Actuarial Accrued Liability (UAAL)	\$	2,856,813	\$	338,067	\$ 1,854,978
Funded Ratio		75.1%		26.9%	49.2%
Covered Payroll	\$	1,902,720	\$	49,588	\$ 336,591
UAAL as a Percentage of Covered Payrol	I	150.1%		681.8%	551.1%

Actuarial Methods and Assumptions

The annual required contribution for MOSERS for the current year was determined as part of an actuarial valuation of the Systems as of June 30, 2012, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MOSERS include: a) rate of return on the investment of present and future assets of 8.0% per year compounded annually, b) projected salary increases of 3.0% per year annually, attributable to inflation, c) additional projected salary increases ranging from 0.2% to 2.9% per year for MSEP and 0% to 2.2% for the Judicial Plan, depending on age, attributable to seniority and/or merit, and d) the assumption that benefits will increase 3.0% per year after retirement.

Note 7 - Retirement Systems (cont.)

The actuarial valuation of the System dated June 30, 2014, will set the required contribution rates for the fiscal year ending June 30, 2016. The actuarial value of assets for MSEP and Judicial Plan recognize assumed investment return fully each year. Differences between actual and assumed investment return are phased-in over an open 3-year period. Valuation assets are not permitted to deviate from the market value by less than 80% or more than 125%. The unfunded actuarial accrued liability is based on a closed 30-year amortization period, level percent of payroll amortization.

The annual required contribution for MPERS for the current fiscal year was determined as part of an actuarial valuation as of June 30, 2012, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MPERS include: a) rate of return on the investment of 8.25% per year compounded annually, and b) projected wage inflation rate of 3.75%.

The actuarial valuation of MPERS dated June 30, 2014, will be used to determine the contribution rate for the Plan year ending June 30, 2016. The actuarial value of assets is based on a 3-year smoothed market value method. The total contribution is based on a closed 15-year amortization period for unfunded retiree liabilities and a closed 30-year amortization period for other unfunded liabilities.

Public School Retirement System of Missouri:

The State of Missouri also made employer contributions to the Public School Retirement System of Missouri which is a cost-sharing multiple-employer defined benefit public employees' retirement system. The System includes all public school districts within the State except for the two districts covering the major metropolitan areas. It also includes certain public college and universities and some state employees.

The benefit provisions include retirement annuities, death benefits, and disability benefits. A member is vested after acquiring five years of membership credit for Missouri service.

The System was created and is governed by Chapter 169 of the Revised Statutes of Missouri. State employees who elected to remain with the Public School Retirement System under Section 104.342, RSMo, are covered by the System.

Employees of the State are not required to contribute. The State, as employer, contributed \$178,000, \$4,933,000, and \$3,013,000 for the years ending June 30, 2014, 2013, and 2012, respectively, to the System, equal to the required contributions for each year.

Copies of the System's June 30, 2014, Comprehensive Annual Financial Report may be requested from:

Public School Retirement System of Missouri P.O. Box 268 3210 West Truman Boulevard Jefferson City, Missouri 65102-0268

College and Universities:

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer, defined benefit plan for all qualified employees. The University's Board of Curators establishes the terms of the Plan and administers it as authorized by State statute.

.

Note 7 - Retirement Systems (cont.)

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. At retirement, up to 30% of the retirement annuity can be taken in a lump sum payment; also the standard annuity can be exchanged for an actuarially-equivalent annuity.

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2014 financial report, which is publicly available. Copies of this report may be requested from:

University of Missouri System Office of the Controller 1000 West Nifong, Building 7, Suite 300 Columbia, Missouri 65211

Funding Policy

The University's contributions to the Retirement Plan are equal to the actuarially determined employer contribution requirement (ARC). The ARC for those employees hired before October 1, 2012, averaged 10.8% of covered payroll for the year ending June 30, 2014. The ARC for those employees hired after September 30, 2012, averaged 6.8% of covered payroll for the year ended June 30, 2014. Employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1 at the beginning of the University's fiscal year, to the actuarially determined amount from the most recent valuation as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year.

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

	University of Missouri System		
Annual required contribution Interest on net pension obligation	\$	113,688	
Actuarial adjustment to annual required contribution			
Annual pension cost		113,688	
Contributions made		(113,688)	
Change in net pension obligation			
Net pension obligation, beginning of year			
Net pension obligation, end of year	\$		

Note 7 - Retirement Systems (cont.)

The annual pension cost, the percentage of annual pension cost contributed to the Plan, and the net pension obligation for three years are as follows (in thousands of dollars):

	Fiscal Year Ending					
	06/	/30/14	06	5/30/13	06	5/30/12
Annual Pension Cost (APC)	\$ 1	13,688	\$	94,176	\$	74,618
Percentage of APC Contributed		100%		100%		100%
Net Pension Obligation	\$		\$		\$	

Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2014, is as follows (in thousands of dollars):

	Actuarial Valuation October 1, 2013			
Actuarial Value of Assets	\$	2,950,555		
Actuarial Accrued Liability (AAL) Entry Age	\$	3,463,025		
Unfunded Actuarial Accrued Liability (UAAL)	\$	512,470		
Funded Ratio		85.20%		
Covered Payroll	\$	1,078,347		
UAAL as a Percentage of Covered Payroll		47.52%		

Actuarial Methods and Assumptions

The annual required contribution for the University for the current fiscal year was determined as part of an actuarial valuation of the System as of October 1, 2013, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation include: a) assumed rate of return on investments of 7.75% per year, b) projected salary increases for academic and administrative employees averaging 4.9% per year, c) projected salary increases for clerical and service employees averaging 4.1% per year, and d) assumed no future retiree ad-hoc increases or cost of living adjustments.

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT and MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). The eligible number of retirees/long-term disability claimants for MCHCP, MHPML, and CEIP for health care benefits are approximately 19,644, 6,179, and 807, respectively. The eligible number of retirees/long-term disability claimants for MOSERS, MHPML, and CEIP for life insurance benefits are 23,020, 3,879, and 470, respectively. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. MOSERS employer contribution rates are set by the Standard Insurance Company. MHPML and CEIP life insurance benefits are funded through employee contributions. MHPML and CEIP employer contribution rates are set by the Plans Board of Trustees and approved by their respective Commission. Employer contribution rates for MCHCP are set in accordance with Section 103.100, RSMo. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Insurance policies are purchased for life insurance benefits and are the liability of the insurance carrier. For fiscal year 2014, the State's contributions were 50.78% of the total (employer/employee) contributions made for other postemployment benefits.

During fiscal year 2014, the State contributed the following amounts (in thousands of dollars):

	He	alth Care	Life Insurance			
MCHCP MOSERS	\$	56,315	\$	 1,874		
MHPML		17,553		1,674		
CEIP		2,902				
Total	\$	76,770	\$	1,874		

During fiscal year 2014, the expenditures recognized by the State for (employer/employee) other postemployment benefits were as follows (in thousands of dollars):

	H	ealth Care	Life	Insurance
MCHCP	\$	105,341	\$	
MOSERS				1,874
MHPML		42,536		
CEIP		5,543		
Total	\$	153,420	\$	1,874

Funding Policy

The contribution requirements of MCHCP, MHPML, and CEIP are established and may be amended by the State legislature, Missouri Highways and Transportation Commission, and the Conservation Department Board of Trustees, respectively. The required contribution for MHPML and CEIP is based on an actuarial study and is financed on a pay-as-you-go basis. For fiscal year 2014, MCHCP, MHPML, and CEIP contributed \$56.3, \$27.5, and \$4.1 million, respectively.

Note 8 - Other Postemployment Benefits (cont.)

Annual OPEB Cost and Net OPEB Obligation

The MCHCP, MHPML, and CEIP annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45, *Accounting and Fiscal Reporting by Employers for Postemployment Benefits Other Than Pensions.* The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of MCHCP, MHPML, and CEIP annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the net OPEB obligation (in thousands of dollars):

	 MCHCP		MHPML		CEIP
Annual required contribution Interest on net OPEB contribution Adjustments to annual required	\$ 100,144 13,682	\$	79,471 20,418	\$	11,724 1,486
contribution	(9,885)		(26,659)		(1,465)
Annual OPEB cost	103,941		73,230		11,745
Contributions made	(56,314)		(27,492)		(4,052)
Increase in net OPEB obligation	47,627		45,738		7,693
Net OPEB obligation, beginning of year	 228,036		453,735		39,621
Net OPEB obligation, end of year	\$ 275,663	\$	499,473	\$	47,314

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2014 are as follows (in thousands of dollars):

		МСНСР			MHPML			
	Fi	iscal Year Endi	ng	Fiscal Year Ending				
	06/30/14	06/30/13	06/30/12	06/30/14	06/30/13	06/30/12

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation for fiscal year ending June 30, 2014, MCHCP used the entry-age method while MHPML and CEIP used the projected unit credit cost method. The actuarial assumptions for MCHCP, MHPML, and CEIP include a 6.0%, 4.5%, and 3.8% discount rate, respectively. The projected annual health care cost trend rate for non-Medicare health care is 7.1% initially, then decreasing by 0.3% per year to an ultimate rate of 5.0%. The projected annual health care cost trend rate for Medicare health care is 7.4% initially, then decreasing by 0.2% per year to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, over a 30-year period.

College and Universities:

University of Missouri System

In addition to the retirement benefits described in *Note 7*, the University provides postemployment medical care, dental care, and life insurance benefits to eligible employees who retire from the University and to employees receiving long-term disability benefits. Currently, 6,987 retirees/long-term disability claimants meet the eligibility requirements. These postemployment benefits are funded through both employer and employee contributions. For fiscal year 2014, the University's contributions were 63.37% of the total (employer/employee) contributions made for other postemployment benefits.

Note 8 - Other Postemployment Benefits (cont.)

Currently, the number of retirees/long-term disability claimants participating in medical care, dental care, and life insurance are 5,493, 5,722, and 3,054, respectively. During fiscal year 2014, the University and its employees contributed \$39,599,000 for other postemployment benefits. The expenditures recognized by the University for (employer/employee) other postemployment benefits were \$39,599,000.

Funding Policy

In June 2008, the University established its OPEB Trust Fund, the assets of which are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with terms of the Plan. Previously, postemployment benefit costs other than long-term disability were funded on a current basis, and expenses were recorded on a pay-as-you-go basis. Long-term disability costs were recognized during the period in which the employee became eligible to receive disability benefits.

The University's OPEB Trust Fund does not issue a separate financial report, but is included in the University's financial report using the economic resources measurement focus and accrual basis of accounting. The University currently plans to contribute to the trust fund an amount that, in addition to the current year premium contributions, is sufficient to fund 50% of the annual required contribution (ARC).

Annual OPEB Cost and Net OPEB Obligation

The University's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the University's net OPEB obligation for fiscal year 2014 (in thousands of dollars):

	versity of ouri System
Annual required contribution Interest on net OPEB obligation Adjustment to annual OPEB obligation Annual OPEB cost Contributions made Increase in net OPEB obligation Net OPEB obligation (asset), beginning of year	\$ 59,966 5,688 (5,729) 59,925 (25,094) 34,831 142,209
Net OPEB obligation, end of year	\$ 177,040

Note 8 - Other Postemployment Benefits (cont.)

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2014 was as follows (in thousands of dollars):

		University of Missouri System							
	Fiscal Year Ending								
	06	5/30/14	0	6/30/13	06/30/12				
Annual OPEB Cost (AOC)	\$	59,925	\$	51,890	\$	51,667			
Percentage of AOC Contributed		41.88%		36.96%		49.31%			
Net OPEB Obligation	\$	177,040	\$	142,209	\$	109,496			

Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2014, was as follows (in thousands of dollars):

	niversity of ssouri System
Actuarial Accrued Liability (AAL) Less Actuarial Value of Plan Assets	\$ 669,836 49,284
Unfunded Actuarial Accrued Liability (UAAL)	\$ 620,552
Funded Ratio	7.36%
Covered Payroll	\$ 1,103,558
UAAL as a Percentage of Covered Payroll	56.20%

Actuarial Methods and Assumptions

In the July 1, 2013, actuarial valuation, University of Missouri System used the projected unit credit cost method. The actuarial assumptions for University of Missouri System included a 4.0% rate of return, net of administrative expenses. The projected annual health care cost trend rate is 5.0% to 8.0% initially, reduced by 0.5% decrements to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, level percent of pay, over a 30-year period.

Note 9 - <u>Deferred Compensation</u>

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Note 9 - <u>Deferred Compensation (cont.)</u>

Copies of the Plan's financial statements may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri State Public Employees' Deferred Compensation Incentive Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees' Deferred Compensation Plan. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employees as well as rollovers from other qualified plans. During fiscal year 2014, rollover contributions to ICMA-RC were \$44,751,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Note 10 - Changes in Short-Term Liabilities

The State uses a bank overdraft line of credit to compensate for timing in cash payments and receipts.

The following is a summary of the changes in short-term liabilities for the year ended June 30, 2014 (in thousands of dollars):

	Bala July 1,		Increases	Decreases	Balan June 30,

Note 12 - Bonds Payable

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	-	Amount Issued	Series Refunded	Amount efunded
Water Pollution Control Bonds:					
Series A 2003-Refunding	10/29/03	\$	74,655	B 1993-Refunding	\$ 76,540

				A 2005-Refunding	905

Note 12 - Bonds Payable (cont.)

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2014, \$594,494,240 of the Water Pollution Control Bonds; \$250,000,000 of the Fourth State Building Bonds; and \$45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is \$130,505,760 and for Stormwater Control Bonds is \$155,000,000. There is no remaining authorization for the Fourth State Buildings Bonds.

General obligation bonds issued and outstanding as of June 30, 2014, were as follows (in thousands of dollars):

				Final

Totals	\$ 323,395	\$ 45,980	\$ 369,375

Note 12 - Bonds Payable (cont.)

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals \$945,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	 Amount Issued	Series Refunded	Amount efunded
Board of Public Buildings:				
Series A 2011-Refunding	09/27/11	\$ 143,020	A 2001	\$ 126,850
			A 2003	12,620
			A 2006	3,175

The Missouri Health and Educational Facilities Authority (MOHEFA) issued \$35,000,000 of Educational Facilities Revenue Bonds (University of Missouri-Columbia Arena Project) Series 2001, dated November 1, 2001, to fund the design, acquisition, construction, furnishing, and equipping of a sports arena facility and related facilities on the University of Missouri-Columbia campus. The Missouri Health and Educational Facilities Authority (MOHEFA) issued \$20,125,000 of Educational Facilities Refunding Revenue Bonds Series 2011, dated November 17, 2011. The Refunding Educational Facilities Revenue bonds refunded \$22,770,000 of Educational Facilities Revenue Bonds Series 2001. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The Educational Facilities Revenue Bonds issued and outstanding as of June 30, 2014, were as follows (in thousands of dollars):

Note 12 - Bonds Payable (cont.)

The Regional Convention and Sports Complex Authority issued \$132.910.000 of Convention and Sports Facility Project Bonds Series A 1991, dated August 15, 1991, to finance the costs of acquiring land and constructing a multi-purpose convention and indoor sports facility in downtown St. Louis, Missouri. On December 15, 1993, the Authority issued \$121,705,000 of Convention and Sports Facility Project Refunding Bonds Series A 1993 for the purpose of refunding the callable portions of the outstanding bonds issued in August 1991 and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was \$101,410,000. On August 1, 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project Refunding Bonds Series A 2003 for the purpose of refunding Convention and Sports Facility Project Bonds Series A 1991 and Series A 1993 refunding bonds and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was \$2,845,000 for the Series A 1991 bonds and \$113,170,000 for the Series A 1993 refunding bonds. On August 20, 2013, the Authority issued \$65,195,000 of Convention and Sports Facility Project Refunding Bonds Series A 2013 for the purpose of refunding Convention and Sports Facility Project Refunding Bonds Series A 2003. The principal amount refunded was \$64,385,000. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State.

The Convention and Sports Facility Project Bonds issued and outstanding as of June 30, 2014, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Ou	tstanding
Convention and Sports Facility Project Bonds: Series A 2013–Refunding	2.0 - 5.0%	2/15; 8/15	8/13	8/15/21	\$ 65,195	\$	65,195

As of June 30, 2014, the debt service requirements for these bonds are as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals		
2015	\$ 7,140	\$ 2,827	\$ 9,967		
2016	7,240	2,610	9,850

Note 12 - Bonds Payable (cont.)

Under a financing agreement dated August 1, 1991, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount of \$10,000,000 for principal and interest and \$2,000,000 for maintenance each year. Future payments to the Authority related to the bond repayment are as follows (in thousands of dollars):

Fiscal Year Ended June 30	State Debt Service Payments
2015 2016 2017 2018 2019 2020-2022	\$ 10,000 10,000 10,000 10,000 10,000 25,000
Total	\$ 75,000

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29–34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2014, the Missouri Highways and Transportation Commission had issued \$3,812,195,000.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Commission (in thousands of dollars):

	Date Issued	 Amount Issued	Series Refunded	Amount efunded
Senior Lien State Road Bonds: Series 2006-Refunding	12/13/06	\$ 394.870	A 2000	\$ 135,980

Totals	\$ 2,679,170	\$ 1,051,643	\$ 3,730,813

⁽¹⁾ The annual debt service schedule assumes an interest rate of 0.07%, representing the interest rate at June 30, 2014, for the Series B 2005 bonds. During the year, interest rates ranged from 0.02% to 0.11%. Interest is reported net of assumed federal subsidies.

Note 12 - Bonds Payable (cont.)

<u>Component Units' Long-Term Debt</u> – The following bonds are included in the balance sheet of the college and universities and the non-major component units.

Major

College and Universities:

The college and universities of the State issue revenue bonds for various projects on each respective campus. Bonds are payable, both principal and interest, only out of net income and revenues arising from operations of facilities funded by the bonds. As of June 30, 2014, debt service requirements for principal and interest for the college and universities were as follows (in thousands of dollars):

Fiscal Year Ended June 30	_ Principal	Interest	Totals

2040-2044	444,209	57,551	501,760
2045-2049	1,080	23	1,103
Totals (1)	\$ 2,101,879	\$ 1,514,388	\$ 3,616,267

⁽¹⁾ The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

Non-Major

Missouri Development Finance Board:

In December 2000, the Board issued \$6,500,000 in St. Louis Convention Center Hotel Series 2000B, taxable infrastructure facilities revenue bonds and \$14,600,000 in St. Louis Convention Center Hotel Series 2000C, tax-exempt infrastructure facilities revenue bonds, respectively for the purpose of paying the costs of acquiring land and constructing a parking garage. Bonds are payable, both principal and interest, out of revenues derived from the operation of the parking garage.

In April 2010, the Board issued \$9,000,000 in Seventh Street Garage Series 2010A, tax exempt infrastructure facilities revenue bonds.

Note 12 - Bonds Payable (cont.)

⁽¹⁾ The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

The annual debt service schedule assumes an interest rate of 0.098%, representing the interest rate at June 30, 2014, for the Series 2000B and Series 2000C bonds. The annual debt service also assumes an interest rate of 4.25%, representing the interest rate as of June 30, 2014, for the Seventh Street Garage Series 2010A bonds. As of June 28, 2012 through April 30, 2015, the Board entered into an interest deferral agreement whereby the bond interest rate for the Seventh Street Garage Series 2010A bonds is the lesser of the modified pay rate of 4.25% annually.

Note 12 - Bonds Payable (cont.)

Note 13 - Defeased Debt

A. Current Year Debt Defeasance

On August 20, 2013, the Regional Convention and Sports Complex Authority issued \$65,195,000 in Convention and Sports Facility Project and Refunding Bonds, Series A 2013, with an interest rate ranging from 2.00% to 5.00%, to refund \$64,385,000 of outstanding Convention and Sports Facility Project and Refunding Bonds, Series A 2003, with interest rates ranging 4.05% to 5.375%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The refunding resulted in an economic gain (difference between the present values of the old and the new debt service payments) of \$8,200,000.

On October 2, 2013, the Board of Public Buildings of the State of Missouri issued \$29,370,000 in Board of Public Buildings Special Obligation Refunding Bonds, Series A 2013, with an interest rate ranging from 2.00% to 5.00%, to refund \$30,195,000 of outstanding Board of Public Buildings, Series A 2003, with interest rates ranging 4.00% to 5.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The Board reduced its total debt service payments by \$4,838,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$3,960,000.

On June 3, 2014, the Missouri Highways and Transportation Commission issued \$589,015,000 in First Lien Refunding State Road Bonds, Series A 2014, with an interest rate ranging from 2.00% to 5.00%, to refund \$149,150,000 of outstanding First Lien Refunding State Bonds, Series A 2006, with interest rates ranging 4.375% to 5.00%, and \$503,330,000 of outstanding First Lien Refunding State bonds, Series B 2006, with interest rates ranging 4.50% to 5.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The Commission reduced its total debt service payments by \$96,673,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$81,872,000.

Note 13 - Defeased Debt (cont.)

On June 3, 2014, the Missouri Highways and Transportation Commission issued \$311,975,000 in Second Lien Refunding State Road Bonds, Series B 2014, with an interest rate ranging from 3.00% to 5.00%, to refund \$325,290,000 of outstanding Second Lien Refunding State Bonds, Series 2007, with interest rates ranging 4.75% to 5.25%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The Commission reduced its total debt service payments by \$26,053,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$23,716,000.

On November 26, 2013, the University of Missouri System issued \$11,325,000 in System Facilities Revenue Bonds, Series A 2013, with an interest rate ranging from 3.00% to 5.00%, to refund \$13,035,000 of System Facilities Revenue Bonds, Series B 2003, with an interest rate ranging from 3.75% to 5.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The University reduced its total debt service payments by \$1,787,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$1,744,000.

On May 22, 2014, the University of Missouri System issued \$294,510,000 in System Facilities Revenue Bonds, Series A 2014, with an interest rate ranging from 2.50% to 5.00%, to refund \$183,455,000 of System Facilities Revenue Bonds, Series A 2007, with an interest rate ranging from 4.00% to 5.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The University has reduced its total debt service payments by \$24,300,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) by \$23,769,000.

On December 10, 2013, the University of Central Missouri issued \$16,310,000 in Educational Facilities Revenue Bonds, Series A 2013, with an interest rate of 2.32% to refund \$17,400,000 of outstanding Educational Facilities Revenue Bonds, Series 2009, with interest rates ranging from 3.00% to 5.05%. As a result of the refunding, the University reduced its total debt service requirement by \$6,600,000, which resulted in an economic gain of \$2,500,000.

On April 30, 2014, Missouri Southern State University issued \$15,030,000 of Auxiliary Enterprise System Bonds, Series A 2014, with an interest rate ranging from 0.35% to 3.95%, to refund \$4,275,000 of Auxiliary Enterprise Revenue Bonds, Series 2000, with an interest rate ranging from 5.30% to 5.50%, and \$10,575,000 of Auxiliary Enterprise System Refunding and Improvement Revenue Bonds, Series 2008, with an interest rate ranging from 3.55% to 4.65%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The University reduced its total debt service payments by \$1,853,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$1,340,000.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by creating separate irrevocable trust funds.

Either new debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds or sufficient funds have been deposited in an irrevocable escrow to pay principal and interest as they become due.

Note 13 - Defeased Debt (cont.)

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Position.

<u>Governmental Activities</u> - As of June 30, 2014, bonds outstanding of \$977,770,000 are defeased.

<u>College and Universities</u> - As of June 30, 2014, bonds outstanding of \$400,215,000 are defeased.

Note 14 - Payables and Receivables

A summary of accounts payable and accounts receivable at June 30, 2014, is shown below (in thousands of dollars):

	G	overnmental Activities	iness-Type Activities	Balance June 30, 2014		
Accounts Payable:			 _			
Taxpayers	\$	93,487	\$ 193	\$	93,680

Protection	\$	2,418

The loans from the component units were for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Position, interfund payables and receivables were eliminated in governmental activities in the amount of \$11,664,000.

The amount reported as "Due from Other Funds" for fiscal year 2014 is significantly more than what was reported in fiscal year 2013. This was due to an adjustment made on the State Lottery's fiscal year 2012 financials for an error which was corrected in fiscal year 2013.

Note 16 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2014, were as follows (in thousands of dollars):

Funds										1,227
Internal Service Funds		41				28	-	41		711
Totals	\$	41	\$	4,299	\$	8,326	\$	207	\$	3,993,771

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- · moving funds related to the construction of capital assets

During fiscal year 2014, there were transfers of \$789,000 from internal service funds to the General Fund, Public Education, and non-major governmental funds. These were transfers of capital assets and are therefore not reported on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances or on the reconciliation above. This is because governmental funds use the modified accrual basis of accounting and therefore do not report capital assets on their financial statements.

Note 17 - Restatements

During fiscal year 2014, additional information became available which required the restatement of fund equity amounts. The following table presents a summary of these restatements by fund (in thousands of dollars):

GOVERNMENTAL FUNDS	Fι	ne 30, 2013 und Balance/ Net Position Previously Reported	 rior Period djustments	Fı	ine 30, 2013 und Balance/ Net Position Restated
Major Governmental Funds					
General Fund	\$	1,446,419	\$ (7)	\$	1,446,412
Conservation and Environmental Protection		1,566,011	(3)		1,566,008
Non-Major Governmental Funds					
Special Revenue		455,459	(39,066)		416,393
PROPRIETARY FUNDS					
Major Enterprise Funds					
Petroleum Storage Tank Insurance		(42,614)	(22)		(42,636)
Non-Major Proprietary Funds					
Enterprise		95,146	(427)		94,719
Internal Service		592,045	11,441		603,486
DISCRETELY PRESENTED COMPONENT UNITS					
College and Universities		5,967,759	(515,148)		5,452,611

Breakdown of restatements by type:

- General Fund, the restatement was due to a decrease in accounts receivable of \$9,000 and an increase in loans receivable of \$2,000.
- Conservation and Environmental Protection, the restatement was due to a decrease in accounts receivable of \$3,000.
- Non-major special revenue funds, the restatement was due to a decrease in accounts receivable of \$1,000 and an increase in accounts payable of \$39,065,000. \$39,550,000 of the increase in accounts payable was due to a reclassification from contingent liabilities to accounts payable.
- Petroleum Storage Tank Insurance, the restatement was due to an increase in accrued payroll of \$22,000.
- Non-major enterprise funds, the restatement was due to a decrease in capital assets (net of accumulated depreciation/amortization) of \$427,000.
- Non-major internal service funds, the restatement was due to a decrease in cash and cash equivalents of \$57,000, an increase in accounts receivable of \$12,046,000, an increase in interest receivable of \$153,000, a decrease in accounts payable of \$56,000, an increase in compensated absences of \$3,000, and a decrease in capital assets (net of accumulated depreciation/amortization) of \$754,000.
- Discretely presented component units college and universities, the restatement was due to a decrease in net position of \$12,774,000 due to the adoption of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* and a decrease in net position of \$502,374,000 due to the early adoption of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions an amendment to GASB Statement No. 27*, by the University of Missouri.

Note 17- Restatements (cont.)

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, capital assets (net of accumulated depreciation/amortization) decreased by \$147,098,000 of which \$148,000,000 was to correct for errors in infrastructure in progress, infrastructure, and infrastructure depreciation, the Internal Balance decreased by \$45,000, deferred charges – issuance costs decreased by \$12,207,000 and deferred charges – refunding decreased by \$3,523,000 due to the implementation of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, interest payable decreased by \$2,087,000, unearned revenue decreased by \$95,708,000, contingent liabilities decreased by \$30,050,000 of which \$39,550,000 was due to a reclassification from contingent liabilities to accounts payable, obligations under lease purchase decreased by \$350,000, and bond premium decreased by \$2,390,000.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by an increase in the Internal Balance of \$45,000.

Note 18 - Fund Deficit

The following fund had a deficit balance:

<u>Enterprise Fund – Petroleum Storage Tank Insurance</u> – At June 30, 2014, this fund had a net position deficit of \$24,088,000. The deficit at June 30, 2013 was \$42,636,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2020, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Various alternatives are being considered to pay off the claims liability amount of this fund. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Note 19 - Commitments

Contracts

The Department of Conservation had contracts outstanding of \$1,470,000 for construction contracts at June 30, 2014. These contracts are funded through the special revenue funds from specific sales tax, fees, and permits.

The Department of Transportation had long-term contracts of \$635,008,000 outstanding at June 30, 2014. These contracts are paid from capital projects funds with approximately 74% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2014 of \$30,223,000. Approximately 88% will be paid from the General Fund, 11% from special revenue funds, and 1% from enterprise funds.

Note 19 - Commitments (cont.)

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$10.8 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2014 was \$364,000. This payment was made in arrears as it was part of a fiscal year 2014 expenditure restriction plan. Payment of principal and interest must be completed by March 2038.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) has \$227.477.000 unfunded commitments in alternative investments.

As of June 30, 2014, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$106,241,000. The payments are as follows:

2015	\$ 18,041,000
2016	18,583,000
2017	19,140,000
2018	19,714,000
2019	20,306,000
2020	10,457,000

Truman State University had approximately \$2,378,000 in outstanding commitments for various construction contracts at June 30, 2014.

Southeast Missouri State University had outstanding commitments of approximately \$11,344,000 related to construction contracts at June 30, 2014.

Missouri State University had approximately \$21,800,000 in outstanding commitments for various construction contracts at June 30, 2014.

University of Central Missouri had approximately \$38,590,000 in outstanding commitments related to construction contracts at June 30, 2014.

Northwest Missouri State University had approximately \$1,580,000 in outstanding commitments related to various construction contracts at June 30, 2014.

Note 20 - Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to State statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

Note 20 - Risk Management and Insurance (cont.)

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. IBNR (incurred but not reported) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for 3% of the total value of the State's property with the remainder uninsured. The buildings that are insured are mainly the buildings backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims from data provided by an actuary. Liabilities are reported at their discounted value, assuming an investment yield of 2%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, underwritten by a commercial insurance company, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is based on known insurance claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for policyholders and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discounted rates ranging between 1.0% and 3.8% based on future investment yields. The University of Missouri System is included with college and universities as a major component unit of the State.

Missouri State University is exposed to various risks of loss. These include loss related to torts; business interruption; employee injuries and illnesses; employee health, dental and accidental benefits; natural disasters; damage to and destruction of assets; and errors and omissions. Commercial insurance coverage is purchased for claims arising from such matters other than those related to natural disasters and employee health benefits, general liability, and workers' compensation. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self–Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self–insures the workers' compensation benefits for all state employees, including University employees.

Note 20 - Risk Management and Insurance (cont.)

Changes in the balances of claims liability (in thousands of dollars) during the current and prior fiscal years are as follows:

Note 20 - Risk Management and Insurance (cont.)

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

Note 21 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2014, the State was participating in the cleanup of twelve Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$20.3 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) performed work related to fuel leaks during 2014. MoDOT is currently involved in remediation activities in two instances related to building and grounds caused by chemical contamination as well as one fuel leak. There was no remaining obligation as of June 30, 2014. The potential for pollution remediation exists; however, any future remediation obligations are not yet estimable.

The Office of Administration (OA), Division of Facilities Management, Design and Construction, performed asbestos, mold abatement and remediation, and fuel spill cleanup in five State sites during fiscal year 2014. At the end of the fiscal year, cleanup was not complete in two of the sites, with a total remaining obligation for mold and asbestos debris cleanup of \$61,000. These costs were based on contractual pricing estimates and are subject to change if the pollution remediation requires more time or material than was estimated.

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The site is listed on the National Priorities List (NPL) and is governed by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). At this time, it cannot be determined the Department of Public Safety's portion of the costs for the cleanup.

Note 21 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation		scal Year mediation Liability 30/2013	As E	rrent Year sessments and stimated Changes	<u>Pa</u>	ayments_	Re	iscal Year mediation Liability /30/2014	Due Within One Year		
Hazardous Waste Fund Missouri Road Fund Facilities Maintenance Reserve Fund	Superfund Sites Chemical Contamination Mold Remediation and Asbestos Abatement	\$	11,085 30 97	\$	10,146 434	\$	(974) (30) (470)	\$	20,257	\$	1,061 61	
Total Governmental Activities		\$	11,212	\$	10,580	\$	(1,474)	\$	20,318	\$	1,122	

The State does not own any municipal solid waste landfills (MSWLF), however in the event the owner/operator refuses or is unable to properly maintain the landfill, the owner/operator forfeits the required financial assurance instrument(s) to fund closure and/or post-closure maintenance activities.

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2014, the Missouri Department of Natural Resources, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$332,004,000. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

At June 30, 2014, eleven MSWLFs and two waste tire facilities have defaulted. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with Missouri Department of Natural Resources Solid Waste Management Law and Regulations. At June 30, 2014, it is expected that \$1,585,000 will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets.

The University of Missouri System has been working with the Voluntary Cleanup Program of the Missouri Department of Natural Resources (MDNR) to characterize subsurface contamination at University owned property. The University is awaiting a cost estimate to perform the additional evaluation requested by MDNR. Long term costs will depend on the results of the two year sampling process that began in 2013. As a result, the University is unable to estimate future costs on cleanup of the site at this time.

Note 22 - Contingencies

Contingent claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

At June 30, 2014, the amount of the contingent liabilities was \$19.8 million. Changes in the reported liability since June 30, 2013, resulted from the following (in thousands of dollars):

	Fis	ginning of scal Year Liability	C	rrent Year laims and hanges in Estimates	Claim ayments	Balance scal Year End
2013-2014	\$	25,135	\$	3,120	\$ (8,499)	\$ 19,756
2012-2013 2011-2012		29,732 75,380		(1,438) (37,309)	(3,159) (8,339)	25,135 29,732

Section 287.220.6, RSMo, requires that an actuarial study of the Second Injury Fund be made every three years to determine the solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2013 actuarial study. At June 30, 2014, the amount of liabilities for the Second Injury Fund was \$1.7 billion. Changes in the reported liability since June 30, 2013, resulted from the following (in thousands of dollars):

	eginning of Fiscal Year Liability*	C	irrent Year laims and hanges in Estimates	P	Claim ayments	 Balance Fiscal Year End			
2013-2014 2012-2013 2011-2012	\$ 1,637,937 1,576,079 1,515,233	\$	66,084 104,352 97,995	\$	(50,839) (42,494) (37,149)	\$ 1,653,182 1,637,937 1,576,079			

^{*} Restated.

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements to the grantor agency for expenditures which are disallowed under grant terms. The State believes that such disallowances, if any, would be immaterial in the next fiscal year.

Sales and Use Tax Lawsuits:

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. A settlement was reached regarding some claims, filed by multiple taxpayers, related to the Southwestern Bell cases. At this time, no current liability remains as of June 30, 2014. Refund claims related to these cases that were filed by other companies that are still pending verification and exclusive of interest (which could be substantial) could negatively affect the State by \$8.3 million, of which \$4.5 million is related to the General Fund.

Note 22 - Contingencies (cont.)

The State is also involved in tax litigation not included in the fiscal year 2014 liability amount, where it is reasonably possible that an adverse court decision may incur an estimated loss of \$15.9 million.

The Attorney General, on behalf of other state agencies, is involved in litigation for tort claims including wrongful death, motor vehicle accidents, medical malpractice, assault and battery, and deliberate indifference as well as employment discrimination claims that are not included in the 2014 liability amount, where it is reasonably possible that an adverse court decision may incur an estimated loss of \$6.5 million.

Tobacco Master Settlement Agreement:

The amount of money received by the State from participating tobacco manufacturers under the 1998 Master Settlement Agreement (MSA) is subject to a downward adjustment if the State fails to diligently enforce legislation required by the MSA. Tobacco manufacturers instituted binding arbitration in 2006 alleging the State of Missouri and 45 other states had failed to diligently enforce their MSA statutes in 2003. The initial arbitration decision determined that Missouri had failed to diligently enforce MSA statutes and Missouri's share of the downward adjustment as a result was \$70 million. Missouri typically receives between \$130 and \$150 million in MSA settlement funds from the tobacco companies each year. The arbitration award would have reduced the fiscal year 2014 receipts to approximately \$60 million.

The State appealed the arbitration panel's decision and in June 2014 the Missouri Circuit Court ruled that the arbitration panel had exceeded its authority in computing Missouri's share of the downward adjustment. The Court ordered an independent auditor to recompute the adjustment. The auditor calculates Missouri's share to be approximately \$20 million. The tobacco companies are appealing the ruling that reduced the State's downward share adjustment from \$70 million to \$20 million. Resolution of this appeal is not expected to occur in fiscal year 2015. The ultimate resolution of the current arbitration appeal cannot be predicted.

Note 23 - Nonexchange Financial Guarantees

The following nonexchange financial guarantees are extended by the Department of Economic Development and the Missouri Agricultural and Small Business Development Authority. The exchange financial guarantees are not recognized as a liability, which indicates that the State will most likely not be required to make a payment related to the nonexchange financial guarantees. As of June 30, 2014, the State extends the following financial guarantees:

Programs	Maximum Guarantee Period	Total Number of Loans Guaranteed	A G	otal Dollar mount of Loans uaranteed thousands)	Total Number of Loans Outstanding	Ai Ou	otal Dollar mount of Loans itstanding thousands)	Gu by	al Dollar mount aranteed the State housands)
Missouri Value–Added Loan Guarantee Program	10 Years	1,337	\$	37,535	84	\$	1,300	\$	650
Single-Purpose Animal Facilities Loan Guarantee Program	10 Years	168		35,400	10		908		454
Crop and Livestock Loan Guarantee Program New Jobs Training	2 Years	4,705		9,524	25		68		34
Certificate Program	1 Year	1		86	1		86		86

Note 23 - Nonexchange Financial Guarantees (cont.)

Missouri Value-Added Loan Guarantee Program

The Missouri Value–Added Loan Guarantee Program provides up to a 50% first–loss guarantee on loans not to exceed \$250,000 for up to 10 years that lenders make for the purpose of an agricultural business development loan. The program is intended to create new economic activity by creating or retaining jobs. Loans guaranteed by the value–added loan guarantee program can be used to finance agricultural property, which includes land, buildings, structures, improvements, and equipment used for the purpose of processing, manufacturing, marketing, exporting, or adding value to an agricultural product. Loans may also be guaranteed to buy stock in a new generation processing entity that processes an agricultural product. In the event of a default, the Missouri Agricultural and Small Business Development Authority will work with the Attorney General's Office or the loan recipient's bank to try to collect. There was one value–added loan guarantee default that was paid in fiscal year 2014 in the amount of \$6,010.

Single-Purpose Animal Facilities Loan Guarantee Program

The Single-Purpose Animal Facilities Loan Guarantee Program is designed to provide banks and other lenders with a 50% first-loss guarantee on loans of up to \$250,000 for up to 10 years. Independent livestock producers may use the loans to finance, refinance or restructure breeding or feeder livestock, earthworms, land, buildings, facilities, equipment, machinery and animal waste systems for producing poultry, swine, beef and dairy cattle, or other livestock. In the event of a default, the Missouri Agricultural and Small Business Development Authority will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2014.

Crop and Livestock Loan Guarantee Program

The Crop and Livestock Loan Guarantee Program is a 50% guarantee on a loan made to a 4-H and Future Farmers of America (FFA) member who borrows money to purchase livestock, input, etc., for their Supervised Agriculture Education (SAE) project. Loans eligible for the program are limited to the purchase of livestock, feed, seed, fertilizer, and other miscellaneous out-of-pocket expenses directly related to the project. For the period between fiscal year 1999 and fiscal year 2014 there have been 4,705 loan guarantees on loans totaling \$9,524,000. In the event of a default, the Missouri Agricultural and Small Business Development Authority will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2014.

New Jobs Training Certificate Program

The New Jobs Training Certificate Program assists qualified companies in the training of employees in new jobs and the retraining or upgrading of skills of full-time employees in retained jobs by entering into an agreement with a participating community college district. Funds for the program are provided by the sale of a certificate issued by the participating community college from a sufficient portion of future receipts from the Missouri Works Community College New Jobs Training Fund or the Missouri Works Community College Job Retention Training Fund. Moneys in each of these funds shall be from participating company withholdings. At June 30, 2014, one certificate in the amount of \$86,000 is outstanding. This certificate is expected to be paid off in January 2015. No new certificates are to be issued. There are no loan defaults under this program.

Note 24- Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

The Authority is considered a joint venture of the State, County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B), and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund \$2,845,000 and \$113,170,000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued \$49,585,000 in Series C 2007 refunding bonds to refund \$61,285,000 of original principal of the Series C 1997 refunding bonds. In August 2013, the Authority issued \$65,195,000 in Series A 2013 refunding bonds to refund \$65,385,000 of Series A 2003 bonds and issued \$32,560,000 in Series B 2013 refunding bonds to refund \$32,180,000 of Series B 2003 bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. In addition, the sponsors provide annual appropriations intended to keep the facility in good repair and competitive with the top 25% of NFL facilities. See *Note 12* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

Summary financial information for the Authority as of and for the fiscal year ended December 31, 2013, is presented below (in thousands of dollars):

Total Assets	\$ 228,095
Total Deferred Outflows of Resources	2,355
Total Assets and Deferred Outflows of Resources	\$ 230,450
Total Liabilities	\$ 147,585
Total Net Position	82,865
Total Liabilities and Net Position	\$ 230,450
Total Revenues	\$ 24,567
Total Expenses	34,602
Net Decrease in Net Position	\$ (10,035)

Copies of the Authority's financial statements may be requested from:

St. Louis Regional Convention and Sports Complex Authority 901 North Broadway St. Louis, Missouri 63101

Note 25 – Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation of the endowments available for expenditure is \$24,692,000, and of this amount, \$23,237,000 is reported as restricted non-expendable net position, \$1,314,000 is reported as restricted expendable net position, and \$141,000 is reported as unrestricted net position. The University of Missouri reported a net appreciation/amortization of restricted non-expendable net position in the amount of \$117,930,000, which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, review the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.035, RSMo. These policies are entity specific and vary with each institution.

Note 26 - Conduit Debt

As of June 30, 2014, the Missouri Development Finance Board issued \$1,508,423,000 in Private Activity Bonds and \$2,201,599,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2014, were approximately \$519,690,000 and \$963,786,000, respectively.

The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

The State Environmental Improvement and Energy Resources Authority, a related organization of the State of Missouri, issues Water Pollution Control and Drinking Water Revenue Bonds on behalf of the Department of Natural Resources. The outstanding balance on these bonds as of June 30, 2014, is \$912,157,000.

The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of the State Environmental Improvement and Energy Resources Authority.

Note 27 - Subsequent Events

Bonds:

On July 9, 2014, legislation was signed increasing the State Board of Public Buildings revenue bond authorization by \$600 million, \$400 million of which may only be issued for renovation or repair of existing buildings or facilities. The remaining \$200 million may be issued for the renovation or repair of existing buildings or facilities at public institutions of higher education.

On August 19, 2014, the Board of Public Buildings of the State of Missouri issued \$88,680,000 of Special Obligation Refunding Bonds Series A 2014. These bonds will bear interest from 1.00% to 5.00%, due in semiannual installments beginning October 1, 2014. This refunded Board of Public Buildings Bonds Series A 2006 outstanding principal in the amount of \$87,225,000.

Note 27 - Subsequent Events (cont.)

On December 10, 2014, the Missouri Development Finance Board issued \$92,660,000 in State of Missouri Annual Appropriation Bonds (Fulton State Hospital Project), Series 2014. These bonds will bear interest from 2.125% to 5.00%, due in semiannual installments beginning April 1, 2015.

Budgets:

In the 2014 legislative session, the General Assembly passed a joint resolution (HJR 72) that submitted to the Missouri voters in the November 2014 election a proposed amendment to the Missouri Constitution that, among other things, requires the Governor to notify the General Assembly if the Governor reduces spending as a result of revenue shortfalls or allots spending in any increment other than equal quarterly amounts and allows the General Assembly to reconsider any such reduction or spending allotment in a manner comparable to an override of the Governor's veto of a bill. The proposed amendment was approved by the voters on November 4, 2014. The amendment goes into effect 30 days after voter approval. After the effective date, it will reduce the flexibility available to the Governor in responding to changes in budget assumptions during a fiscal year. However, it will not change the underlying responsibility and authority of the Governor to balance the budget. The proposed amendment specifically provides that the Governor may not reduce any appropriations for the payment of principal and interest on public debt.

Missouri Department of Transportation:

The Series B 2005 First Lien State Road Bonds were issued as variable rate instruments with weekly rate changes. Since June 30, the rates varied from 0.02% to 0.06%.

University of Missouri:

On August 11, 2014, the University of Missouri Health Care (MUHC) announced closure of the Missouri Rehabilitation Center in Mount Vernon, Missouri. Services at the Center will continue until December 31, 2014. MUHC will receive a final appropriation of \$5,014,000 from the State. An estimated loss of \$7,783,000 will be recognized on the write-down of the facility at the time of closure.

In September of 2014, the University of Missouri, Santarus, Inc., Salix Pharmaceuticals, Inc., and Par Pharmaceutical, Inc. entered in a settlement agreement regarding Santarus, Inc. et al v. Par Pharmaceutical, Inc. (the "Zegerid Patent Litigation"). The Zegerid Patent Litigation pertains to civil actions for infringement of patents covering certain Zegerid products which was brought by the University and Santarus against Par Pharmaceutical in U.S. District Court. A one-time payment of \$100 million by Par will be made to an escrow approved by Santarus and the University. Funds will be allocated by terms of the Exclusive License Agreement between Santarus and the University. Full amount of the settlement has not been determined, but the University expects to receive the funds and recognize a gain during fiscal year 2015.

Required Supplementary Information (RSI) includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, and the Notes to RSI on Budgetary Reporting.

STATE OF MISSOURI NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY REPORTING June 30, 2014

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where "actual" revenues are recognized when cash is received, and "actual" expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2014, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budaet. This report can be viewed http://oa.mo.gov/accounting/reports/annual-reports/appropriation-activity-reports. The "original budget" expenditures and transfers are for what was originally appropriated for each fund. The "final budget" expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the "final budget" column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between "budgeted" and "actual" expenditures on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2014, is shown below (in thousands):

	Final Budg	jet Transfer	Actual	Transfer
	In	Out	In	Out
GENERAL FUND SPECIAL REVENUE FUNDS	\$ 3,160,789	\$ (3,160,789)	\$ 2,766,277	\$ (2,766,277)
Public Education	450,553	(450,553)	403,777	(403,777)
TOTAL	\$ 3,611,342	\$ (3,611,342)	\$ 3,170,054	\$ (3,170,054)

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

Supplementary Information includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (Missouri Road Fund), as well as the Combining and Individual Fund Statements and Schedules for the General Fund and all Non-Major Funds.

The Combining and Individual Fund Statements and Schedules

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison schedule is provided for all non-major governmental funds with the exception of capital projects funds.

The Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.

Non-Major Special Revenue Funds:

Professional Registration – Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance – Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair – Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance – Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement – Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation – Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other – Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

The **Debt Service Funds** account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Debt Service Funds:

Water Pollution Control Bond and Interest – Accounts for moneys used to pay the principal of the Water Pollution Control Bonds and the interest thereon.

Third State Building Bond Interest and Sinking – Accounts for moneys used to pay the principal of the Third State Building Bonds and the interest thereon.

Fourth State Building Bond and Interest – Accounts for moneys used to pay the principal of the Fourth State Building Bonds and the interest thereon.

Stormwater Control Bond and Interest – Accounts for moneys used to pay the principal of the Stormwater Control Bonds and the interest thereon.

Missouri Road Bond – Accounts for moneys used to pay bonds issued by the Highway and Transportation Commission.

The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.

Non-Major Enterprise Funds:

State Fair Fees – Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks – Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services – Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving – Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Missouri Veterans' Homes – Accounts for fees to provide services for persons confined to one of the veterans' homes.

State Agency for Surplus Property – Accounts for the surplus property operation.

Department of Revenue Information – Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

The Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.

Internal Service Funds:

Natural Resources Cost Allocation – Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments – Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation – Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving – Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving – Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving – Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust – Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative – Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees – Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan – Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan – Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan – Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan – Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan – Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

The Fiduciary Funds account for assets held by the State in a trustee or agent capacity.

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan – Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan – Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System – Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust – Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan – Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan – Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust – Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Johnson-Travis Memorial Trust – Accounts for all moneys, stocks, and securities given to the State by Miss Pansy Johnson or for the benefit of the Pansy Johnson-Travis Memorial State Gardens. Moneys will be used solely to establish, develop, and maintain the gardens.

Unclaimed Property – Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Agency Funds:

Social Security Contributions – Accounts for the receipt of contributions from various state funds for the State's share of social security contributions, which are due to the Federal Social Security Administration.

Missouri State Employees' Voluntary Life Insurance – Accounts for moneys withheld from employees' compensation for the contracts entered into with life insurance companies.

Program – Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution – Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

The **Component Units** account for all transactions relating to legally separate entities which, for reporting purposes, are a part of the State.

Non-Major Component Units:

Missouri Development Finance Board – Accounts for moneys from bond proceeds, gifts, and grants to make loans for industrial development.

Missouri Agricultural and Small Business Development Authority – Accounts for moneys from bond proceeds, gifts, and grants to make loans for property acquisitions/renovations and pollution control facilities.

Missouri Transportation Finance Corporation – Accounts for moneys from federal, state or local sources, and from bond proceeds to be used for projects approved by the Missouri Highways and Transportation Commission.

Missouri Wine and Grape Board – Accounts for moneys derived from the privilege of selling wine to be used for marketing development in developing programs for growing, selling, and marketing of grape products grown in Missouri.

The Statistical Section presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.

Index and Overview

This part of the State's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Financ	·ial	Tren	ds
--------	------	------	----

These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Position by Component	151
Changes in Net Position	152
Fund Balances - Governmental Funds	154
Changes in Fund Balances - Governmental Funds	156

Revenue Capacity

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry	158
Revenue Base - Personal Income by Industry	159
Personal Income Tax Revenue	
Personal Income Tax Rates	161
Revenue Payers by Industry	162
Personal Income Tax Filers/Liability	

Debt Capacity

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt	164
Pledged Revenue Coverage	166

Demographic and Economic Information

These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators	167
Economic Indicators	
Principal Employers	169

Operating Information

These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function	170
Operating Indicators by Function	
Capital Asset Statistics by Function	173

Sources: Unless otherwise noted, the information in these schedules is derived from the State of Missouri Comprehensive Annual Financial Report for the years shown.

¹Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

²Operating Expenses do not include depreciation/amortization.

³Coverage equals net available revenue divided by debt service.
